(4) (a) The financing agreement shall provide that the assessments, when added to the credit for the Kentucky state corporate income tax herein granted, shall not exceed the total financing agreement annual payment by the approved company in any year, however, to the extent that financing agreement annual payments exceed credits received and assessments collected in any year, the excess payment may be recouped from excess credits or assessment collections in succeeding years.

(b) If during any fiscal year of the financing agreement the total of the income tax credit granted to the approved company plus the assessment collected from the wages of the employees equals the annual payment pursuant to the financing agreement, and if all excess payments pursuant to the financing agreement accumulated in prior years have been recouped, the assessment collected from the wages of the employees shall cease for the remainder of the fiscal year of the financing agreement.

(5) The financing agreement shall provide that:

(a) It may be assigned by the approved company only upon the prior written consent of the authority following the adoption of a resolution by the authority to such effect; and

(b) Upon the default by the approved company in the obligation to render its annual payment, the authority shall have the right, at its option, to declare the financing agreement in default and to accelerate the total of all annual payments that are to be made or to terminate the financing agreement and sell the economic development project at public or private sale, or to pursue any other remedies available under the Kentucky Uniform Commercial Code, as from time to time amended, or otherwise available in law or equity.

(f) Prior to the preparation of definitive revenue bonds or notes, the partnership may, under like restrictions, issue interim receipts or temporary bonds, exchangeable for definitive revenue bonds or notes when the revenue bonds or notes shall have been executed, and are available for delivery. The partnership shall also provide for the replacement of any revenue bonds or notes that shall have become mutilated or shall have been destroyed or lost. Revenue bonds or notes may be issued under the provisions of this chapter directly by the partnership without obtaining the consent or acquiescence of any cabinet, division, commission, board, department, or agency of the state other than the Finance and Administration Cabinet, and as provided in KRS 42.420, and without any other proceedings or the happening of any other conditions or things except as specifically required by this chapter and the provisions of the resolution or resolutions of the partnership authorizing the issuance of the revenue bonds or notes.

(2) The partnership shall assume all bond issuance and refunding authority, power, duties, and obligations as existed on the effective date of this Act for the Kentucky Development Finance Authority, the Kentucky Rural Economic Development Authority, the Kentucky Infrastructure Authority under KRS Chapter 224A, the Kentucky Agricultural Finance Corporation under KRS Chapter 247; the ability of any of the foregoing organizations to issue industrial revenue bonds under KRS Chapter 103; and the ability of any of the foregoing authorities to issue economic development revenue bonds as provided in this chapter. The partnership shall also have the authority and power to issue revenue bonds for any other economic development activity as set forth in this chapter.

(3) The partnership shall for purposes of the Kentucky Revised Statues be deemed to be the successor issuer for all of the currently issued and outstanding bond issues by the organizations set forth in subsection (2) of this section. The partnership shall have the authority and the power to reaffirm all existing bond obligations of the organizations in subsection (2) of this section and shall perform all duties, obligations, and requirements as may be necessary and required under the bond documents relating to each and every such issue. The partnership shall also, in regard to each and every such issue, exercise its authority and power as set forth in this chapter.

(4) In the discretion of the partnership, any revenue bonds or notes issued under the provisions of this chapter may be secured by a trust indenture by and between the partnership and corporate trustee which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. A trust indenture, or the resolution of the partnership providing for the issuance of revenue bonds or notes, may pledge or assign for the security of the revenue bonds or notes, all or any part of the totality of partnership revenues received and to be received. The trust indenture or resolution of the partnership may contain provisions for protecting and enforcing the rights and remedies of the bondholders which may be reasonable and proper, and not in violation of law, including, but not limited to, covenants and provisions setting forth the duties of the partnership in relation to the purposes to which revenue bonds and note proceeds may be applied; the disposition or pledging of assets and partnership revenues; and the custody, safeguarding, and application of all partnership revenues. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of revenue bonds, notes, or partnership revenues, to furnish such indemnifying bonds, or to pledge such securities as may be required by a trust indenture or resolution of the partnership. Any trust indenture or partnership resolution may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders, where a trust indenture has been entered into. In addition to the foregoing, any trust indenture or partnership resolution may contain other provisions which the partnership determines to be reasonable and proper for the further security of the holders of any revenue bonds or notes. All expenses incurred in carrying out the provisions of a trust indenture or bond proceedings may be treated as a part of the cost of operating the partnership, and may be paid from partnership revenues pledged or assigned to the payment of the principal of and the interest on revenue bonds or notes, or from any other funds properly available to the partnership. However, the payment of operational costs shall, as provided in subsection (1) of this section, be subordinate to the payment of principal of and interest on partnership revenue bonds or notes from partnership revenues, it being intended that these principal and interest requirements shall be secured by a prior and paramount lien on gross partnership revenues.

(5) Notwithstanding any other provision to the contrary, any trust indenture or partnership resolution shall provide that, except to the extent the rights afforded to bondholders by this section shall be enforceable and enforced by a trustee under a trust indenture rather than by the bondholders, any holder of revenue bonds or notes issued by the partnership or any of the coupons appurtenant thereto, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any and all rights generally arising under the laws of the Commonwealth, or granted under this chapter, or under a trust indenture,

or by the resolution of the partnership authorizing the issuance of revenue bonds or notes, and may specifically enforce and compel by mandamus the performance of all duties required by this chapter, or by trust indenture, or partnership resolution, to be performed by the partnership or by any officer or employee thereof, including, but not limited to, the prompt and full enforcement of the terms and conditions of all assistance agreements, to which the partnership is a party.

(6) The partnership is hereby authorized to provide for the issuance of refunding revenue bonds or notes for the purpose of refunding any revenue bonds or notes then outstanding, whether issued by the partnership under the provisions of this chapter or one (1) of the agencies, authorities or organizations referenced in subsections (2) and (3) of this section, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of these revenue bonds or notes, and, if determined advisable by the partnership, for the additional purpose of providing further funds for the carrying out of the proper public and governmental purposes of the partnership. The issuance and sale of the refunding revenue bonds or notes, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties, and obligations of the partnership in respect of the same, shall be governed by the provisions of this chapter which relate to the issuance of revenue bonds or notes, insofar as these provisions may be applicable.

(7) Refunding revenue bonds or notes may be sold or exchanged directly for outstanding revenue bonds or notes of the partnership, and if sold, the proceeds thereof shall be applied, in addition to any other authorized purposes, to the purchase, redemption, or payment of these outstanding revenue bonds or notes. Pending the application of the proceeds of any refunding revenue bonds, with any other available funds, to the payment of the principal, accrued interest, and any redemption premium on the revenue bonds or notes being refunded (and if so provided or permitted in the partnership resolution authorizing the issuance of the refunding revenue bonds or notes, or in the trust indenture securing the same, to the payment of any interest on the refunding revenue bonds or notes and any expenses in connection with the refunding), the proceeds may be invested in direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America which shall mature or which shall be subject to redemption by the holders thereof at the option of such holders not later than the respective dates when the proceeds, together with the interest accruing thereon, will be required for the purposes intended.

(8) Revenue bonds and notes issued by the partnership under the provisions of this chapter are hereby declared and deemed to be securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These obligations of the partnership are hereby declared and determined to be securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth, for the purpose for which the deposit of bonds, notes, or obligations of the Commonwealth is now, or may hereafter be, authorized by law.

(9) Revenue bonds or notes issued by the partnership under the provisions of this chapter shall not be deemed to constitute a debt of the Commonwealth or of any political subdivision thereof, or a pledge of the faith and credit of the Commonwealth or of any political subdivision thereof; but the bonds shall be payable as to principal and interest solely from partnership revenues provided therefor under the provisions of this chapter. All such revenue bonds or notes shall contain on the face thereof a statement to the effect that neither the Commonwealth nor the partnership shall be obligated to pay the same, or the interest thereon, except from partnership revenues, as defined in this chapter; and that neither the faith and credit, nor the taxing power of the Commonwealth or any political subdivision thereof is pledged to the payment of the principal of and interest on such revenue bonds or notes.

(10) The Commonwealth, for the specific use and benefit of the partnership, may cause to be submitted to the voters of the state in a manner provided by Sections 49 and 50 of the Constitution of Kentucky, from time to time, propositions for the incurring of state indebtedness represented by general obligation bonds of the Commonwealth, the proceeds of which are to be made available to the partnership and used and employed by the partnership for all proper partnership purposes.

(11) Subject to the provisions of KRS 56.870 to 56.873, the State Property and Buildings Commission or the Kentucky Turnpike Authority may issue bonds for which debt service originates with an appropriation of the General Assembly, and may make the proceeds available to the partnership for all proper partnership purposes.

(12) Funds appropriated to the partnership by the General Assembly, including but not limited to repayments of revolving funds established with appropriations of the General Assembly or established with bond issues for which the debt service, issuance costs, reserve fund requirements, insurance premiums or

any other expenditures associated with bond issuance are appropriated by the General Assembly, shall not be commingled with other partnership funds and shall only be expended for the purposes specified by the General Assembly when the appropriation is made or as approved in subsequent actions of the General Assembly.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 160.470 is amended to read as follows:

(1) Each district board of education shall prepare a general school budget ***in formats*** [~~on forms~~] prescribed and furnished by the State Board for Elementary and Secondary Education, showing the amount of money needed for current expenses, debt service, capital outlay, and other necessary expenses of the schools during the succeeding fiscal year, the estimated total amount that will be received from the common school fund and other sources, the assessed valuation of property subject to local taxation in the school district furnished as provided in subsection (3) of KRS 160.460, an estimate made by the Revenue Cabinet of public service company assessments and assessments of other property in the school district not furnished under the provisions of subsection (3) of KRS 160.460, and the amount that will be needed to be raised by local taxation, including the rate of levy necessary to raise such an amount.

(2) (a) Notwithstanding any statutory provisions to the contrary, no district board of education shall levy a general tax rate, voted general tax rate, or voted building tax rate for 1979-80 which will produce more revenue, exclusive of revenue from net assessment growth as defined in KRS 132.010, than would be produced by application of the maximum general tax rate, voted general tax rate, or voted building tax rate, respectively, that could have been levied in 1978-79, to the 1978-79 assessment, except as provided in subsection (12) of this section and KRS 157.440. In succeeding years, no district board of education shall levy a general tax rate, a voted general tax rate, or a voted building tax rate which will produce more revenue, exclusive of revenue from net assessment growth as defined in KRS 132.010, than would be produced by application of the general tax rate, maximum voted general tax rate, or maximum voted building tax rate, respectively, that could have been levied in the preceding year to the preceding year's assessment, except as provided in subsection (12) of this section and KRS 157.440.

(b) ***If*** [~~In the event that~~] an election is held as provided for in KRS 132.017 and the question should fail, such failure shall not reduce the ". . .general tax rate, maximum voted general tax rate, or maximum voted building tax rate, respectively, that could have been levied in the preceding year. . .," referred to in subsection (2)(a) of this section, for purposes of computing the general tax rate, voted general tax rate, or voted building tax rate for succeeding years.

In the event of a merger of school districts, the limitations contained in this section shall be based upon the combined revenue of the merging districts, as computed under the provisions of this section.

(3) No district board of education shall levy a general tax rate, voted general tax rate, or voted building tax rate within the limits imposed in subsection (2) of this section which respectively exceeds the compensating tax rate defined in KRS 132.010, except as provided in subsection (12) of this section and KRS 157.440, until the district board of education has complied with the provisions of subsection (10) of this section.

(4) The chief state school officer shall certify the following to each district board of education, by June 30 of each year:

The failure of the district board of education to furnish the budget within the time prescribed shall not invalidate any levy made thereafter.

(7) The budget shall be disapproved by the State Board for Elementary and Secondary Education if it is financially unsound or fails to provide for:

(a) Payment of maturing principal and interest on any outstanding voted school improvement bonds of the school district, authorized and issued pursuant to KRS 162.080 and 162.090 with the written approval of the State Board for Elementary and Secondary Education; or

(c) Fails to comply with the law.

The State Board for Elementary and Secondary Education shall state the reason for disapproval and the district board of education shall amend its budget, within the limitations of this section, to obviate the reasons for disapproval and resubmit the budget to the State Board for Elementary and Secondary Education for final approval.

7. The purpose of the hearing; and

8. A statement to the effect that the General Assembly has required publication of the advertisement and the information contained herein.

(c) In lieu of the two (2) published notices, a single notice containing the required information may be sent by first-class mail to each person owning real property, addressed to the property owner at his residence or principal place of business as shown on the current year property tax roll.

(d) The hearing shall be open to the public. All persons desiring to be heard shall be given an opportunity to present oral testimony. The district board of education may set reasonable time limits for testimony.

(11) (a) That portion of a general tax rate, a voted general tax rate, or a voted building tax rate, except as provided in subsection (12) of this section and KRS 157.440, levied by an action of a district board of education which will produce, respectively, revenue from real property, exclusive of revenue from new property, more than four percent (4%) over the amount of revenue produced by the compensating tax rate defined in KRS 132.010, shall be subject to a recall vote or reconsideration by the district board of education as provided for in KRS 132.017, and shall be advertised as provided for in paragraph (b) of this subsection.

(b) The district board of education shall, within seven (7) days following adoption of an ordinance, order, resolution, or motion to levy a general tax rate, voted general tax rate, or voted building tax rate, except as provided in subsection (12) of this section and KRS 157.440, which will produce revenue from real property, exclusive of revenue from new property as defined in KRS 132.010, more than four percent (4%) over the amount of revenue produced by the compensating tax rate defined in KRS 132.010, cause the following to be published, in the newspaper of largest circulation in the county, a display type advertisement of not less than twelve (12) column inches:

of thirty cents ($0.30) for general school purposes. Equivalent tax rate is defined as the rate which results when the income collected during the prior year from all taxes levied by the district for school purposes is divided by the total assessed value of property plus the assessment for motor vehicles certified by the Revenue Cabinet. School districts collecting school taxes authorized by KRS 160.593 to 160.597, 160.601 to 160.633, or 160.635 to 160.648 for less than twelve (12) months during a school year shall have included in income collected under this section the pro rata tax collection for twelve (12) months.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 205.575 is amended to read as follows:

(1) As used in this section:

(a) "Hospital indigent care assurance program" (HICAP) means the medicaid hospital indigent care assessment and payments program administered by the Department for Medicaid Services in accordance with this section.

(b) "Department" means the Department for Medicaid Services; and

(c) "Fund" means the medicaid assessment revolving trust fund (MART) which consists of money collected from hospitals and other participating providers; or the medicaid assessment improvement trust (MAIT) fund which consists of money transferred from the MART fund in accordance with the provisions of this section. Money paid into the MART fund shall be used first to meet obligations to the providers from which the funds are collected and to maintain contingency reserves as necessary, with any remainder paid into the MAIT fund except for funds reserved for administrative costs. The MAIT fund shall only be used or held in reserve to meet contingencies of the medicaid program which result from unanticipated federal mandates, federal disallowances, or program growth based upon the enacted budget or state law. Both the MART and MAIT funds are to be matched with funds from the federal medicaid program in accordance with the provisions of this section, and shall be exempt from any state budget reduction acts. All funds generated pursuant to KRS 205.575 to 205.578 shall be appropriated to the Department for Medicaid Services and shall be supplementary only and shall not be used to replace funds appropriated to the medicaid program by the General Assembly. All moneys paid by hospitals under HICAP prior to March 4, 1991, were intended to be and shall be considered a tax assessment which was appropriated to the Department for Medicaid Services;

(d) "Hospital" means an acute care hospital, excluding licensed inpatient psychiatric facilities licensed under KRS Chapter 216B;

(e) "Medical assistance program" means the Kentucky medicaid program as described in KRS 205.510 to KRS 205.590 and state regulations pertaining thereto and the federal medicaid program as defined in Title XIX of the Social Security Act and federal regulations pertaining thereto; and

(f) "Assessment" means a tax assessment levied on hospitals pursuant to this section.

(2) The commissioner of medicaid services shall adopt a disproportionate share program consistent with the requirements of Title XIX of the Social Security Act which shall include to the extent possible, but not be limited to, the provisions of this section.

(3) The requirements of this section shall apply only as long as federal funds under the medical assistance program are provided and the federal funds are at least equal to the amount of hospital assessments.

(4) The secretary for human resources shall promulgate administrative regulations necessary for the implementation of this section.

(5) Each year the department shall:

(a) Determine each hospital's total costs for services to patients as reported by the hospital to the department in the hospital's most recent medicaid cost report; and

(b) Multiply the hospital's total costs for services to patients by one-half percent (0.5%) up to five percent (5%) as determined feasible by the department. The hospital's initial assessment shall be for the calendar quarter ending March 31, 1991. Each hospital's assessment shall be subject to adjustment under subsection (9) of this section and which shall be deposited in the MART fund.

(6) (a) A hold harmless amount shall be held in reserve from the MART fund which is sufficient to assure that each hospital receives as payment from the fund an amount not less than the amount of that hospital's assessment plus one hundred thousand dollars ($100,000). Up to two percent (2%) of the assessments shall be reserved for necessary administrative expenditures of the department, such amount to be placed in a trust and agency account of the department established for this purpose. The department may maintain within the MART fund an undistributed contingency reserve of up to one million dollars ($1,000,000).

(b) Hospitals shall be entitled to at least the following rates of return: for the amount generated by the first one percent (1%) of assessment, the assessment and any federal match on that portion of the assessment based on medicaid occupancy; for the amount generated by the second and third percents of assessment, an amount which for a facility is equal to the assessment and any federal match on that portion of the assessment based on medicaid occupancy but not more than three hundred percent (300%), in total, of that portion of the assessment; and for the amount generated by the fourth and fifth percents of assessment, an amount which for a facility is equal to the assessment and any federal match on that portion of the assessment based on medicaid occupancy but not more than two hundred percent (200%), in total, of that portion of the assessment. The commissioner of medicaid services shall specify by regulation amounts to be paid to hospital providers if payment amounts are to exceed the maximum specified in this section. The minimum rates of return may be adjusted by administrative regulation as necessary, contingent on changes in the federal matching ratio. Assessment amounts in the MART fund not paid to hospitals, or reserved as contingency or administrative funds shall be transferred to the MAIT fund.

(7) (a) The department shall determine the percentage that each hospital's allowable medicaid days constitute of the sum of total allowable medicaid hospital days. The result shall be the indigent care factor for the hospital. As used in this section, days means the hospital's inpatient days covered by the medical assistance program for eligible recipients as reported to the department.

(b) The department shall multiply the indigent care factor for each hospital by the hospital assessment amount in the MART fund, taking into consideration the provisions of subsection (6) of this section, plus the federal matching dollars. The resulting product, subject to adjustment under subsection (9) of this section, shall be the amount that each hospital is to receive under the program.

(c) If any hospital's assessment exceeds the amount it is determined eligible to receive under subsection (7)(b), the department shall pay to the hospital from the hold harmless reserve specified in subsection (6) of this section an amount sufficient to bring the hospital's total payment under the program up to the assessment amount.

(8) Each hospital shall be notified in writing by the department of the results of determinations made pursuant to subsections (5)(b) and (7)(b) of this section. If no hospital submits a request for reconsideration under subsection (9) of this section, the determinations shall be considered final. Requests for reconsideration shall be subject to the provisions of subsection (9) of this section.

(9) Any hospital may submit a written request to the department for reconsideration of the determinations within twenty (20) days of notice of the determinations. The request shall be accompanied by written materials setting forth the basis for reconsideration. If one (1) or more hospitals submit a request, the department shall hold a public hearing within twenty (20) days from the last date on which reconsideration requests may be received. The department shall mail written notice of the date, time and place of the hearing to every hospital at least ten (10) days before the date of the hearing. On the basis of the evidence submitted to the department or presented at the public hearing, the department shall reconsider and may adjust the determinations.

(10) Within twenty (20) days of the public hearing, the department shall provide notice in writing to each hospital of the final determination of the amount it is required to pay and is eligible to receive after the adjustments made in accordance with subsection (9) of this section. Any hospital may appeal the decision of the department as to the amount it is required to pay or is eligible to receive to Franklin Circuit Court.

(11) (a) Each hospital shall submit its assessment to the department in equal quarterly installments according to a schedule adopted by administrative regulation. Variations in payment schedules shall be permitted as deemed necessary by the commissioner of medicaid services according to criteria set forth in administrative regulations.

(b) Any hospital that fails to make payments to the department on or before the schedule specified in this section or under any schedule for delayed payments established by the commissioner of medicaid services shall be fined not less than twenty thousand dollars ($20,000). The commissioner of medicaid services shall waive the penalties provided for in this subsection for good cause shown by the hospital as determined in accordance with criteria set forth in administrative regulations.

(c) The MART fund shall be established in the State Treasury and all payments from hospitals under this section, excluding the administrative amount provided for in subsection (6) of this section, shall be deposited in the State Treasury to the credit of the fund. All investment earnings of the fund shall be credited to the fund and transferred to the MAIT fund as appropriate. The department shall maintain records that show the amount of money in the fund at any time that has been paid by each hospital. All moneys credited to the fund shall be used to make payments to hospitals or transferred to the MAIT fund after commitments have been met. A hospital shall not have its most recent non-disproportionate share payment rate reduced as a result of this program.

(12) The department shall make quarterly disbursements from the fund to each hospital within thirty (30) days from the time of the hospital assessment payment. All disbursements to hospitals shall be conditional on:

(a) Expiration of the time of judicial appeals or on court determinations; and

(b) The availability of sufficient moneys in the fund.

(13) The department shall conduct annual audits of the hospital indigent care assurance program to determine that amounts received from or paid to hospitals were correct. If an audit conducted by the department of the amount of payments made and received by hospitals identified amounts that, due to errors by the department, a hospital should not have been required to pay but did pay, should have been required to pay but did not pay, should have not received but did receive, or should have received but did not receive, the department shall:

(a) Make payments to any hospital that the audit reveals paid amounts it should not have been required to pay or did not receive amounts it should have received; or

(b) Take action to recover from a hospital any amounts the audit reveals it should have paid but did not pay or that it should not have received but did receive.

Payments made under subsection (13)(a) of this section shall be made from the fund. Amounts recovered under subsection (13)(b) of this section, less the federal matching share or the state administrative share as specified in subsection (6) of this section, as applicable, shall be deposited to the credit of the fund.

(14) Hospitals participating in the provisions of this section shall:

(a) Display prominently signs which read as follows: "This hospital will accept patients regardless of race, creed, ethnic background or ability to pay";

(b) Accept benefits of state health insurance coverage described in KRS 18A.229 and 18A.2281;

(c) Provide to medicaid recipients any additional days of coverage per hospital stay, based on medical necessity determined in the usual manner, without responsibility for payment for such days of care accruing to the patient or the medicaid program; ***and***

(d) [~~Accept as payment in full benefits of student health insurance described in KRS 304.18-115 where such payment is at least equal to the hospital's medicaid rate; and~~

~~(e)~~] Collect and report to the department data on the number of indigent patient days provided pursuant to this section, including additional days of coverage for medicaid recipients.

(15) By September 1, 1991, the Department for Medicaid Services shall determine eligibility under HICAP for indigent individuals and families with income up to one hundred percent (100%) of the federal poverty level; such individuals shall be eligible for inpatient hospital benefits equal to those provided medicaid recipients under the medicaid program, subject to approval by the Federal Health Care Financing Administration, without responsibility for payment accruing to the patient or the medicaid program. However, hospitals may bill any eligible third-party payor for payment of such services.

(16) By February 1, 1992, the department shall provide the General Assembly with a report on the feasibility of including indigent patient days, including additional days of coverage for medicaid recipients, in the determination of the payments under HICAP or other ways of compensating hospitals with a disproportionate share of indigent care as defined in this section.

HB 164, AN ACT relating to the unemployment insurance program.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 341.530 is amended to read as follows:

(1) The department shall maintain a reserve account for each subject employer, and shall, except as provided in KRS 341.590, credit to such account the total amount of all contributions paid by the employer on his own behalf. Nothing in this section or elsewhere in this chapter shall be construed to grant any employer or individual who is or was in his employ prior claims or rights to the amounts paid by him into the fund.

(2) Except as provided in subsection (3) of this section, all regular benefits paid to an eligible worker in accordance with KRS 341.380 plus the extended benefits paid in accordance with KRS 341.700 to 341.740, subject to the provisions of paragraphs (a) and (b) below, shall be charged against the account of his most recent employer. No employer shall be deemed to be the most recent employer unless the eligible worker to whom benefits are payable shall have worked for such employer in each of ten (10) weeks whether or not consecutive.

(a) Subject employers, which are not governmental entities as defined in KRS 341.069, shall be charged one-half (1/2) of the extended benefits paid in accordance with KRS 341.700 to 341.740; and

(b) Subject employers which are governmental entities, as defined in KRS 341.069, shall be charged for all extended benefits paid in accordance with KRS 341.700 to 341.740 for compensable weeks occurring on or after January 1, 1979 and for one-half (1/2) of the extended benefits paid for compensable weeks occurring prior to such date.

(3) Notwithstanding the provisions of subsection (2) of this section, benefits paid to an eligible worker and chargeable to an employer's reserve account under such subsection shall be charged against the pooled account if such worker was discharged by such employer for misconduct connected with his most recent work for such employer, voluntarily left his most recent work with such employer without good cause attributable to the employment, or such employer has continuously employed the worker without significant interruption since the end of the worker's base period and in the week with respect to which benefits are paid, wages and employment are provided to the worker by such employer to the same extent as during the base period, and the employer within a reasonable time, as prescribed by regulation of the secretary, notifies the department, in writing, of the alleged voluntary quitting, discharge for misconduct or continuing employment; provided, however, that no employer making payments to the fund in lieu of contributions shall be relieved of charges by reason of this subsection.

(4) Each subject employer's reserve account shall, unless terminated as of the computation date (as defined in subsection (5) of KRS 341.270), be charged with all benefits paid to eligible workers which are chargeable to such reserve account under subsection (2) of this section. A subject employer's reserve account shall be deemed to be terminated if he has ceased to be subject to this chapter, and his account has been closed and any balance remaining therein has been transferred to the fund's pooled account or to a successor's account as provided in KRS 341.540.

(5) Notwithstanding subsection (1) of this section, two (2) or more nonprofit (Internal Revenue Code sec. 501(c)(3)) organizations may jointly request the secretary to establish a group reserve account for such nonprofit organizations. Two (2) or more governmental entities may jointly request the secretary to establish a group reserve account, and once established, such account shall remain in effect at least two (2) calendar years and thereafter until either dissolved at the discretion of the secretary or upon filing application for dissolution by the group members. Each member of a group shall be jointly and severally liable for all payments due under this chapter from each or all of such group members. The secretary shall prescribe such procedures as he deems necessary for the establishment, maintenance and dissolution of a group reserve account.

(6) Any subject employer may at any time make voluntary payments to the fund, additional to the contributions required under KRS 341.260 and 341.270. Notwithstanding any other provision of this chapter, contributions paid on or before the computation date and voluntary payments made within twenty (20) days following the mailing of notices of new rates shall, in accordance with administrative regulations established by the secretary, be credited to an employer's reserve account as of the computation date. Voluntary contributions by any new employer subject to KRS 341.270(2) or KRS 341.272(1) shall not exceed any negative balance they may have in their reserve account as of the computation date. Any employer who is delinquent in the payment of contributions, penalties, or interest as of October 31 of the current year shall be limited to a voluntary contribution equal or less than the sum of these delinquencies owed on that date.

The positions of mine inspector supervisor, mine inspector, mine safety analyst, and instructor, if the instructor is a member of the mine rescue team certified by the United States Mine Safety and Health Administration, shall be considered as hazardous positions within the meaning of KRS 61.592. The Department of Mines and Minerals shall make the employer contributions for participation in the hazardous duty retirement program as required by KRS 61.592(3)(b).

Section 2. KRS 61.592 is amended to read as follows:

(1) "Hazardous position" means any position whose principal duties involve active law enforcement (including the positions of probation and parole officer, and Commonwealth detective), active fire suppression or prevention, or other positions, including but not limited to pilots of the Transportation Cabinet, ***and, within the Department of Mines and Minerals, mine inspector supervisors, mine inspectors, mine safety analysts, and instructors satisfying the standard established in Section 1 of this Act,*** with duties that require frequent exposure to a high degree of danger or peril and also require a high degree of physical conditioning. Hazardous positions shall include positions in the Corrections Cabinet in state correctional institutions and the Kentucky

Upon request, each employer shall certify to the board in the manner prescribed by the board the names of all employees working in a hazardous position as defined in subsection (1) of this section for which coverage is requested. The certification of the employer shall bear the approval of the agent or agency responsible for the budget of the department or county indicating that the required employer contributions have been provided for in the budget of the employing department or county. The board shall determine whether the employees whose names have been certified by the employer are working in positions meeting the definition of a hazardous position as provided by subsection (1) of this section.

(3) (a) An employee determined by the board to be working in a hazardous position in accordance with subsection (2) of this section shall contribute for each pay period for which he receives compensation, seven percent (7%) of his creditable compensation;

The rate ***shall*** [~~will~~] be determined by actuarial methods consistent with the provisions of KRS 61.565;

(c) ***If*** [~~In the event~~] the employer participated in the system prior to electing hazardous duty coverage, ***the*** [~~then said~~] employer may pay to the system the cost in order that the nonhazardous service be credited as hazardous service, or the employer may establish a payment schedule for payment of the cost of the hazardous service above that which would be funded within the existing employer contribution rate. The employer may extend the payment schedule to a maximum of thirty (30) years. Payments made by the employer under this subsection shall be deposited to the retirement allowance account of the proper retirement system and these funds shall not be considered accumulated contributions of the individual members. ***If*** [~~Should~~] the employer ***does not*** elect [~~not~~] to make the additional payment, [~~then~~] the employee may make the lump-sum payment in his own behalf or may pay in his own behalf in increments by payroll deduction each pay period prior to his retirement. Payments made by the employee under this subsection shall not be picked up, as described in KRS 61.560(4), by the employer. If neither the employer nor employee makes the payment, the service prior to hazardous coverage shall remain nonhazardous.

(4) The normal retirement age, retirement allowance and other benefits, eligibility requirements, rights, and responsibilities of a member in a hazardous position, as prescribed by subsections (1), (2), and (3) of this section, and the responsibilities, rights, and requirements of his employer shall be as prescribed for a member and employer participating in the State Police Retirement System as provided for by KRS 16.510 to 16.652, except the mandatory retirement provisions of KRS 16.576(1) and the maximum employment age in KRS 16.520(2) shall not be applicable.

Governor Brereton C. Jones addressed the Joint Session of the General Assembly as follows:

BUDGET ADDRESS

FEBRUARY 6, 1992

Three weeks ago I stood before you in this chamber to share the vision I have for our Commonwealth in the coming years. I spoke then of a new spirit that, together, we must generate to move our great state into the 21st century with pride, prosperity, and a renewed dedication to public service. This spirit will be borne of cooperation between our branches of government. It will require much of us as we jointly strive to make the right decisions on behalf of the women, men and children whose interests we are here to serve.

None of these decisions will be more important than the ones we make on our spending priorities for the next two years. Tonight, I want to share with you our administration's budget recommendations for the 1992-94 biennium. These recommendations come at a time when our resources have been severely limited by the national recession. They reflect the reality of revenue projections that show we will have approximately the same amount of money available to spend in the next fiscal year that we are spending this year.

And while our resources remain flat, our obligations continue to grow. Federal and state mandates in education, the environment and health care require hundreds of millions of new dollars that we simply do not have available. As a result, we have many difficult choices to make. We could choose to cut the budgets of all state agencies and tell the children and parents of this state that education reform will have to wait. To balance this budget, we could slash programs for the poor and the needy. We could do just enough to get by and hope for better times. But we are not adopting that approach. The people of Kentucky have elected us to lead, to move forward to a truly progressive society and a robust economy.

If we use hard economic times as an excuse to avoid hard policy decisions, we will have defaulted on our obligation to lead. And that's just not going to happen. The budget I am presenting tonight reflects our best efforts to redirect the spending and the policies of state government. It also reflects and furthers those areas of highest priority for our government: fulfilling the promise of education reform; giving every child a fair start on life; improving access to affordable, quality health care for every Kentuckian; and providing a foundation for economic development in every Kentucky community.

Our plan is predicated on three major principles.

First, there will be no tax increase proposed. We must deal with our problems within our existing tax base.

Second, we will take appropriate, necessary actions to control the cost of government. Our major task lies in balancing the budget in the first year of the biennium. We will use a combination of selective roll backs of salaries, a reduction in the number of employees, and shifts in spending away from the central office in Frankfort and into the field and the direct delivery of services. Massive layoffs will be avoided. But selective cutbacks will be necessary.

Third, we will position our state to take advantage of a better year in 1994—a year that will get us on track again to provide the services, programs, infrastructure and economic opportunity that Kentuckians expect and deserve from their state government.

While we expect 1994 to be a better year, we recognize that the strength of Kentucky's economy will reflect the condition of the national economy. We are committed to working our way through this fiscal challenge. But our task will be easier or harder depending on the actions of the federal government. We're doing what needs to be done in Kentucky. Our budget—while tight—is balanced. And I strongly believe that a change in policy in Washington—a change that will result in a balanced federal budget—is what Kentucky and all states need to ensure long-term prosperity.

We will recommend some bold initiatives in the second year of the biennium. At least two of these will start taking shape tonight but will await full implementation until an extraordinary session of this General Assembly is convened later in the year. These two are a complete restructuring of our health care system and a revitalization of Kentucky's parks system.

As I mentioned earlier, we have had to make several tough choices to obtain the funds necessary to address the highest priorities of government.

We have recommended cuts in most areas of government. We have tried in every case to do this thoughtfully and with due regard for the mission of each agency. I believe that these cuts are manageable. They will, however, challenge every Cabinet secretary and program manager in government. I ask, therefore, that you provide each policy maker with the flexibility necessary to administer a lean, smaller budget. The Cabinet officers and other top administrators will face major challenges in the next two years. They will need to have your support in managing the workforce in the most effective way and in using the funds you provide most productively. We have structured the draft Appropriations Bill for the Executive Branch to reflect the need for both austerity and flexibility.

Unfortunately, we have been forced to suspend some statutory obligations, such as the five percent mandate for state employee salary raises. We have also used every other fund source in government to augment the General Fund—including $29 million in each year of the biennium from road funds to finance part of the State Police budget and to step up efforts by the Revenue Cabinet to collect road fund taxes. We will also recommend that surplus funds generated by certain fees and charges be transferred into the General Fund. In a number of cases, we have incorporated recommendations for organizational realignment in the budget in the expectation that cost savings will result. These actions, in concert, have enabled us to redirect state spending into our highest priority areas. They have also given us the ability to manage our budget better than many of the states suffering similar fiscal and economic difficulties.

As you have heard me say many times, education is my highest priority. We must find the means to move ahead with education reform—even in the midst of this recession. Historic opportunities do not always pick the most convenient times to present themselves. We must act now because the opportunity is before us now. We will not, we cannot, break our covenant on education reform with the children of Kentucky.

Our budget plan has enhanced the most important elements of education reform. There will be no reduction in the basic per-pupil grant to local school districts in the SEEK program in 1993. We will provide sufficient funding in fiscal 1994 for a 3 percent increase in the SEEK base funding. Moreover, we have proposed full funding for the Tier 1 equalization program at a level of nearly $160 million over the next biennium, an increase of more than $100 million above the current biennium. As you know, the Tier 1 program provides state funds to those local school districts that raise additional local revenues to enhance their educational offerings.

These state funds are weighted to provide the greatest assistance to the least affluent school districts. Tier 1, as much as any other program, promotes the dual goals of excellence and equity embodied in our education reform effort.

Our pre-kindergarten program is vital to the long-term success of education reform. If funded and administered properly, this program can give many Kentucky children a fair start on life. With the $33 million provided in fiscal 1993 and the $37 million recommended for 1994, we will be able to serve approximately 80 percent of the eligible at-risk children in the first year of the biennium and 90 percent in the second year.

To increase the availability of social services and health services to those school children most in need, we have provided for $48.3 million over the biennium for the family and youth services centers. Our plan will allow us to maintain the other important elements of the education reform package. Not every program has been funded at the requested levels, but every program has been preserved. This has been done at a time when other states are cutting their education efforts. Three examples warrant mentioning: the technology program, the student assessment program and the school rewards fund.

Currently, $48 million is available for the design and implementation of a long-range technology plan for elementary and secondary education. Our budget will preserve that funding and increase it by $15 million over the next biennium to provide a $63 million fund for the technology plan. While this amount of new funding is below the requested level, it evidences a significant commitment to a program with tremendous long-term potential.

Our budget allows for full funding of the biennial request for the student assessment program. Accurately measuring how well our children are learning is vital to continued educational progress. Under our plan, $11.7 million will be directed toward that effort in the next biennium. The current funding of $30 million for the school rewards program will be preserved. Moreover, we propose adding $15 million to that trust fund during the next biennium. The other state programs in elementary and secondary education have been maintained. While all do not reflect the requested levels, sufficient funds will be available to ensure continued progress.

We have also preserved the funding levels for vocational education. Additional funding of $5 million for staffing and operations in fiscal year 1994 will allow us to take full advantage of the eight new or expanded advanced technical and vocational schools you authorized in the 1990 Session.

Our education reform efforts will not be complete if we ignore the critical role libraries play in supporting our teachers and students. Indeed, one of the major goals of reform is to make students more independent in their learning and to prepare them for a lifetime of self-sufficiency and individual productivity. To this end, I am increasing state aid to our public libraries 12.5 percent in 1993 and an additional 11 percent in 1994. For the first time since this body adopted the state aid reform bill in 1986, the Executive Budget will meet the fifty three cents per capita funding formula established by statute.

We have also recommended full funding of the state contribution to the teachers' retirement fund and full funding of the supplemental contribution required by statute. We have asked that a portion of that supplemental contribution be used to provide necessary funding for the medical insurance program for retired teachers.

Our commitment to education and education reform must not diminish. Our recommendations will enable us to move to the next step in education reform. And they will ensure that Kentucky's education system remains a model for the nation.

To enable us to fund our education reform efforts in elementary and secondary education, we have had to recommend that the budgets of our four-year institutions be reduced by five percent in fiscal year 1993. This decision is personally painful to me because of my involvement, interest and commitment in higher education. It is, however, the right decision under the circumstances. And I will do everything in my power to more than make up for this cut in the second biennium of our administration.

Our four-year institutions received increases in their state funding of 22.1 percent during the 1990-92 biennium. Even after budget cutbacks in the prior administration, state funding for these institutions increased by 15.2 percent during this biennium, While I know it will not be easy, I also know that the four-year schools have management flexibility and other sources of funds that should help them through the next fiscal year. Our budget plan recommends a restoration of a portion of those reductions through a three percent across-the-board spending increase in fiscal 1994.

Despite the limited money available for higher education, we must press ahead with our accountability and assessment efforts. Funding of $2.4 million has been provided to the Council on Higher Education for this effort during the next biennium. This must be a cooperative effort with the higher education community. For this reason, a significant portion of this funding will be provided to the individual campuses in the form of grants to implement a system of assessing each institution's progress in establishing and meeting their goals in instruction, research, and public service.

Our budget plan sets forth a recommendation that community college funding be preserved intact in fiscal year 1993 and increased by three percent in fiscal 1994. Our community college system has experienced a remarkable 109 percent growth in enrollment during the last ten years. Many of those new students have been "non-traditional" students who were seeking additional education to help them find or keep jobs. The community colleges also prepare thousands of students annually to continue their education at one of our four-year universities. They are truly the peoples' colleges and are doing a great job of making educational opportunities available across our Commonwealth.

We cannot have a truly progressive society unless government helps those who are least able to help themselves. We cannot say that we are providing true economic opportunity for all unless government assists those who want to work their way out of poverty. That is why we have devoted special attention to the budget for the Cabinet for Human Resources. The General Fund budget of the cabinet will, according to our budget plan, increase by 20.9 percent over the biennium.

Other states experiencing our national economic turmoil have reduced their budget deficits or balanced their budgets by slashing spending on health and human service programs. Such thinking is, as we know, insensitive and shortsighted. Many programs and services in this cabinet are preventive in nature and actually save us money in the long run. That is why it is in our best interests to preserve and protect them.

To obtain sufficient resources for health and human services programs, we have cut budgets for administration and related services within the Cabinet for Human Resources. We have eliminated positions in central offices to enable us to add more funding for beneficial programs and to hire more people in the field to provide needed assistance.

A task force I will announce soon will study our healthcare system and make recommendations to me that will form the basis of legislation to be proposed to you in an extraordinary session. Health care access and preventive health care measures will be two important issues for that group. Our budget plan for health services focuses on those issues.

Medical experts tell us that preventive health care is perhaps the most effective way to promote good health at the lowest cost. We have recommended that $3 million in new funds over the biennium be devoted to preventive care. That new money will enable our local health departments to expand their programs for preconceptional care; well-child care; nutrition services; family planning; immunization; breast and cervical cancer and other maternal and child health programs.

I have already restored $2.1 million of budget cuts imposed by the previous administration in the area of health services and I want to thank Representative Tom Burch for bringing to my attention the impact of those cuts. With that funding restored, assistance can be preserved for AIDS patients, immunization programs can be preserved fully; grants can be maintained for local emergency medical services; newborn intensive care programs at UK and U of L can be preserved as well as the indigent prenatal program and the children and youth program at U of L; and the high-risk infant program can stay intact.

The Medical card is the passport for the poorest Kentuckians to secure entry into the health care system. It is estimated by the end of the biennium that approximately half a million people will be enrolled in the Medicaid program. Medicaid will require a commitment of more than $915 million in state funds to maintain services at these current levels over the next two years. Although it was difficult with our present revenue picture to find these dollars, I could not turn my back on those Kentuckians who rely on their state government for medical care. I found the dollars and can assure all recipients that we will continue to provide the full array of Medicaid services to those eligible for medical assistance. In addition, for the first time all medically necessary services identified in preventive health checkups will be covered by the Medicaid Plan.

We have recommended that payments to hospitals under our disproportionate share provider assessment program be reduced to enable us to have sufficient resources to preserve our Medicaid program intact. Without these additional funds our Medicaid program could not be continued without reductions in benefits, which I just could not tolerate.

I am also going to ask that those hospitals receiving additional Medicaid payments through the disproportionate share plan provide outpatient services as well as the inpatient services they currently provide free-of-charge for those Kentuckians who do not qualify for Medicaid, whose incomes are 100 percent of poverty or below. This should assure that indigent Kentuckians will be afforded the full array of services provided through hospitals.

The mentally ill have all too often been the most neglected patient population in the health care system. Programs serving these patients generally lag behind the rest of health care in the good times and are the most vulnerable to cuts when dollars are scarce. We have restored $2.8 million of current year budget cuts in the mental health system.

State funding for mental health and mental retardation will increase from $104 million to $124 million over the next biennium. Of that amount, $2 million in both years of the biennium will be devoted to expansion of the contracts with our 14 regional community health comprehensive care centers. One million dollars from the general fund will be devoted to staff expansion at our residential facilities. Our rape crisis center program will be expanded to every region of our Commonwealth through an additional $676,000 in funding over the biennium. We will provide $5.1 million in fiscal year 1993 and $10.2 million of general funds the following year to enable new group homes and other new facilities to be opened and maintained during the next biennium.

We intend to provide strong support for those who are seeking to work their way out of poverty. Our educational and job training and placement efforts under the auspices of the Federal Family Support Act will be expanded from 32 to 92 counties. We will not cut AFDC benefits in this time of economic trouble. Moreover, we have recommended increased funding to provide for continuation of our state welfare reform effort that allows those welfare recipients who gain employment to retain medical coverage and income supplementation while they move toward self-sufficiency.

Domestic stress increases with economic difficulties. Thus, expansion of programs that deal with and prevent that stress deserve special attention now. Our budget plan calls for an expansion of $500,000 in fiscal year 1993 and $750,000 in fiscal year 1994 for spouse abuse centers. We have recommended that our Family Preservation program be expanded by $2.6 million over the biennium. Under our plan, Intensive Family Based Services programs would be expanded by $500,000 in each year of the biennium. We have also asked for new spending in the amount of $1,259,000 to expand the protective service social worker complement by 50. This will increase greatly our ability to respond promptly to reported child abuse.

If we are to have enough money over the long-term to operate government and create a society in which all have true economic opportunity, we must spare no effort to create jobs. We cannot wait on Washington to act. We must help ourselves now.

I am proposing a $100 million bond issue for your consideration for the second year of the next biennium. The proceeds of this issue will be devoted to major capital construction improvements at our state parks and recreation areas. Our first task is to study our tourism and recreation needs in every area of the Commonwealth. Based on that study, I will then recommend specific appropriations for particular projects later this year in an extraordinary session.

It is important that any new parks, lodges, and other attractions considered for addition to the state parks system be solid investments that have a clear chance to be successful and profitable. We cannot afford to waste this opportunity. There is no sense in spending our resources on projects that will simply require a perpetual public subsidy. In addition, we must take advantage of this opportunity to address the need to upgrade and renovate existing park facilities which have deteriorated over the past thirty years. This is not a time for massive expansion—but a time to return to the highest standards of quality.

These funds will enable us once again to have the finest state park and recreation system in the United States. More important, these funds will be used to create jobs—good-paying construction jobs to be followed by permanent positions at our parks and recreation areas. Of course, more important are the off-site economic benefits that a fine state park can anchor. This bond issue will enable us to build projects like the golf course at Jenny Wiley State Park; the campground and boating facilities at Yatesville Lake; the lodge at Kincaid Lake State Park; the beach at Paintsville Lake; and the improvements at Ben Hawes State Park.

There are many Kentucky communities that do not have the advantage of being the home of a state park or a large factory. Those communities need to build a foundation for economic development. And they need money to develop infrastructure and site locations to attract and keep businesses. Nowhere is this need greater than in our coal counties. These counties are facing the immediate challenge to diversify their economic base. They need assistance, and they need it now—not years from now. That is why I am committed to doing everything possible to return 50 percent of the severance tax revenues to coal counties to be used for infrastructure needs. And that is why I want to begin the process right now. Our budget plan proposes increasing from 12% to 15% the amount of coal severance tax funds set aside for coal counties in the first year of the biennium. And we are calling for an increase to 18% the following year. This amounts to more than $15 million in new revenues for the coal counties in the next biennium.

It is important that we get started on this program now—even under our current financial conditions. We cannot afford to wait to begin. For many years, our coal-producing counties have experienced far worse conditions than we now face as a Commonwealth. The true unemployment in our Appalachian counties averages in excess of 30%, with some of those counties have a true unemployment rate in excess of 50%. And our Western Kentucky coal counties are just as deserving—and are hurting just as much. We must understand the plight of a young person in a coal county who must leave home and look elsewhere for a good job and a bright future. We must act now to create a new economy for our coal counties. This means more than simply providing additional funding under the existing formula for coal tax distribution. The additional funds must be targeted to infrastructure and economic development. I will support legislation you are considering to do just that I am proud to recommend this very important step.

Communities throughout our Commonwealth also need help in creating that foundation for economic development. Government is an essential partner with the private sector and with local communities in making strategic investments in people, institutions and infrastructure to create and maintain jobs.

I am recommending $30 million in new bonding authority for the Kentucky Infrastructure Authority to enable it to provide the necessary financial assistance to communities interested in laying this foundation for creating and preserving jobs. This will match over $100 million in federal funds and allow us to extend vital water, sewer, and other fundamentals of economic development into more communities.

We all recognize how important transportation is to economic development. Our budget proposes that an additional $150 million of bonds be sold in fiscal year 1993 to continue the progress on high priority road projects initiated during the 1990 Session. You and I have made a commitment to the people of Kentucky to build these roads and, together, we will honor it.

We will also take full advantage of the new Federal Highway Act and the additional funds Kentucky can attract. We will maximize these funds and continue to match every federal dollar that we can reasonably get. We will continue an ambitious resurfacing and maintenance program to take care of our existing network of highways and bridges. We will, however, cut back on unnecessary mowing to allow more money to be spent directly on maintenance and reconstruction.

Because of our fiscal situation, we must be judicious in the use of bond funding for capital projects. Our budget plan sets forth reasonable capital construction recommendations. These recommendations are directed toward maintenance of our current physical plant and construction of new facilities that have already been partially funded or that have significant local and private support. We are recommending funding in fiscal 1994 for the next phase of the expansion of the south wing of the Kentucky Fair and Exposition Center at a cost of approximately $25 million. We also recommend an expenditure of $8 million in addition to the $10 million already authorized for the regional events center at Murray.

In addition, we have requested that $12.5 million be appropriated for waterfront development in Louisville. The availability of these funds is contingent upon our receiving commitments of at least $12.5 million in private contributions toward that effort. Because of strong local financial commitments, we have recommended that $1 million be appropriated in fiscal 1994 for design work for the Northern Kentucky Convention Center.

This is not the time for a large number of new building projects in higher education. We have recommended authorization for three new projects only. We request that the University of Kentucky be authorized to spend approximately $12 million of privately raised funds in this biennium to begin the Commonwealth Library project at the Lexington campus. The library will be truly a statewide asset and the impressive amount of private funds already raised by the University of Kentucky shows significant support for this project. I recognize that there are many other worthy projects, such as the Sanders-Brown Center on Aging, that need and deserve our support. Unfortunately, we will not be able to move ahead on those until some later time.

We have recommended that design funds be made available in fiscal 1994 for a new building at the Hazard Community College and for a new classroom building at Ashland Community College.

We have also recommended that $30 million worth of borrowing authority be granted to the School Facilities Construction during the biennium.

One of the fastest growing areas of the state budget for more than a decade has been corrections. Over the next biennium it is estimated that we will have approximately a 16 percent increase in our prison population. This translates into 1,680 additional felons for which the Commonwealth will be responsible. The budget I have proposed will provide for this projected growth. We will use a combination of methods to house felons involving existing institutions, greater reliance on county jails that have available space and meet proper standards, and private contract facilities. We will design Phase II of the Muhlenberg County Prison and plan to open Phase I near the end of the biennium.

As you know, I am recommending the consolidation of the Corrections Cabinet into the Justice Cabinet. I believe this will save administrative costs and provide better direction for our criminal justice efforts. In doing so, I intend to preserve our commitment to the Kentucky State Police. Despite the fiscal situation, we will not reduce the ranks of the State Police officers at all. In fact, the budget cut in fiscal year 1993 for State Police will be held to just 2.5 percent. I am confident that the service level provided by the State Police and the entire Justice Cabinet will continue in its present excellent fashion.

We also cannot diminish our level of support for the environment. This budget funds and supports the continuation of the ambitious Environmental Management Plan begun in 1990. It maintains our support for surface mining reclamation and enforcement consistent with the National Wildlife Federation Settlement Agreement. The budget also begins implementation of our efforts to meet the Clean Air Act mandates required by federal law. To do so, we will propose the enactment of a fee structure to allow proper phasing-in of the increased costs to both the Commonwealth and private industry. As you know, we must be in full compliance by 1995.

As I noted in my State of the Commonwealth address, one of my main priorities is governmental reform. The most important step we can take in this session to further the cause of good government is to adopt a campaign finance law that will provide for public funding for governor and lieutenant governor campaigns.

I expect a tough new campaign finance bill, with public financing, to be introduced within a few days. I intend to work on behalf of that bill wholeheartedly. I am confident that, with your support, we can enact that bill this session. Our budget plan includes an appropriation of $3 million in fiscal 1994 to begin that system of public financing, recognizing that the need could vary depending on the content of the legislation and the number of candidates who participate.

Certainly one of the most important areas of the budget for our government is our personnel policy. We have worked as hard as we could during our brief time in office to effect savings in government.

Have we been perfect. Of course not. I don't need to remind anyone in this chamber of a well-publicized incident. But I do want to let you know that we have corrected this misstep. And I want to share with you some examples of success. We are cutting the non-merit overhead across the board. In the Finance Cabinet, we have cut the number of upper-level non-merit jobs by almost 16% compared to a year ago. And we are down in Tourism overhead by almost 17%. And the reduction in the Human Resources Cabinet is 15%. Our approach is saving Kentucky taxpayers millions of dollars. And we are just beginning.

It is our goal that, by the end of the current fiscal year, we will reduce the number of non-merit principal assistants in our agencies by 50%. I believe this is appropriate and very much in keeping with our commitment to redirecting the priorities and resources of state government to programs that serve the citizens of this Commonwealth.

As I mentioned earlier, additional selective cutbacks will in all probability be necessary because of our financial circumstances. Wherever possible, we will achieve these reductions through attrition. But it is very important that our cabinet secretaries be given the flexibility to identify and eliminate positions that are unnecessary to the missions of their agencies. This flexibility will also help them direct our resources to the areas of greatest need. I ask for your assistance in giving our managers the tools they need to do the best possible job for our taxpayers.

We have chosen a different approach to our pay policy for the next biennium.

Regrettably, the salaries of those employees making more than $50,000 will be cut by two percent in the fiscal year beginning July 1, 1992. I am also inviting participation in this aspect of our salary policy by other officials in state agencies not directly covered by our central state personnel system.

Sacrifices are necessary, and I believe that those who make the most are best able to bear the burden. Every member of my cabinet has already agreed to take the two percent pay cut in fiscal 1993. And, of course, I will also take that cut next year.

Full-time state workers who currently are paid less than $20,000 will receive a two percent raise in fiscal 1993. These employees and all others will receive a three percent raise the following year under our plan. We will continue to provide support for the health insurance benefit package for state employees and school system personnel. We are recommending continuation of the current employee contribution rate to the state employees retirement system.

I recognize that all of us would prefer to be serving our state in time of greater economic prosperity. I predict that we will have that opportunity in the next few years. But the reality of the present makes our cooperative relationship even more important. We can—and we must—work together, Democrats and Republicans, to bring our Commonwealth through these challenging times. I know that we will do just that because—despite our lack of dollars—we do not suffer from a poverty of leadership in Kentucky. I know that we have the shared will and commitment to get the job done right.

Thank you.

Representative Stumbo moved that the Joint Session of the House and Senate be dissolved. Agreed.

The Speaker resumed the Chair.

Section 3. KRS 61.872 is amended to read as follows:

(5) An employee who is or was an employee of a county participating in the County Employees Retirement System which did not participate in the system effective July 1, 1958, may obtain credit in the County Employees Retirement System for current service between July 1, 1958, and the effective date of participation of his county by paying to the County Employees Retirement System a delayed contribution payment for the service he would have received had his county participated on July 1, 1958. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer. An employee participating in the Kentucky Employees Retirement System or the County Employees Retirement System who was formerly employed by an area development district created pursuant to KRS 147A.050 which does not participate in the County Employees Retirement System may obtain credit for the period of his service with the area development district by paying to the retirement system in which he participates the full cost of the service credit purchased, as determined by the system actuary. Payment shall be by lump sum except that the employee may pay by increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for.

(6) Effective August 1, 1988, service credit obtained under subsections (1) to (5), (8) to (12), (14) and (15) of this section shall be disallowed and the recontribution of refund, including interest as determined by the board or other payment, if any, shall be paid to the member, upon request, if the member does not obtain for service performed six (6) months' current service credit in one (1) of the state-administered retirement systems or as an employee of a parted employer. The service requirement shall be waived if the member dies or becomes disabled as provided for by KRS 61.600.

(7) The members shall not receive benefit of service for the same period of time in another public defined benefit retirement fund.

(8) Any employee participating in one (1) of the state-administered retirement systems who has obtained for service performed six (6) months' current service credit in one (1) of the retirement systems administered by the Kentucky Retirement Systems, who formerly worked for a state university in a position which would have qualified as a regular full-time position had the university been a participating department, and who did not have the option to be covered at the university by an advance funded retirement program in which he could vest during his period of employment, or did not participate in a retirement system which can be consolidated with other accounts pursuant to KRS 61.680(2), may obtain credit in the County Employees Retirement System, the Kentucky Employees Retirement System or the State Police Retirement System for prior and current service by paying either retirement system a delayed contribution payment for the service he would have received had his period of university employment been covered by the county employees, Kentucky Employees Retirement System or State Police Retirement System. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer.

(9) (a) Effective August 1, 1980, any county participating in the County Employees Retirement System may purchase current service, between July 1, 1958, and participation date of the county, for present employees of the county who have obtained coverage under KRS 78.540(2);

(b) Effective July 1, 1973, any department participating in the Kentucky Employees Retirement System may purchase current service between July 1, 1956, and participation date of the department, for present employees of the department who were employees on the participation date of the department and elected coverage under KRS 61.525(2);

(c) Cost of the service credit purchased under this subsection shall be determined by computing the discounted value of the additional service credit based on an actuarial formula recommended by the board's consulting actuary and approved by the board. A department shall make payment for such service credit within the same fiscal year in which the option is elected. The county shall establish a payment schedule subject to approval by the board for payment of such service credit. The maximum period allowed in a payment schedule shall be ten (10) years with interest at the rate actuarially assumed by the board; however, a shorter period is desirable and the board may approve any schedule provided it is not longer than a ten (10) year period;

(d) If a county or department elects the provisions of this subsection, any present employee who would be eligible to receive service credit under the provisions of this subsection and has purchased service credit under subsection (4) or (5) of this section shall have his payment for such service credit refunded with interest at the rate paid under KRS 61.575 or 78.640;

(e) Any payments made by a county or department under this subsection shall be deposited to the retirement allowance account of the proper retirement system and these funds shall not be considered accumulated contributions of the individual members.

(10) Interest paid by a member of the Kentucky Employees Retirement System, County Employees Retirement System, or State Police Retirement System under this section or other similar statutes under KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 prior to June 19, 1976, shall be credited to the individual member's contribution account in the appropriate retirement system and considered as accumulated contributions of the member.

(11) Members who served as assistants to officers and employees of the General Assembly who were unable to acquire service under KRS 61.510(20) may purchase credit for such service performed after January 1, 1960, provided the service purchased when added to other accumulated service will total at least forty-eight (48) months. Service credit under this section shall be obtained by the payment of a delayed contribution which shall not be picked up by the employer as described in KRS 61.560(4).

(12) Effective August 1, 1988, any employee participating in one (1) of the state-administered retirement systems may purchase service credit for seasonal, emergency, or temporary employment or part-time employment averaging one hundred (100) or more hours of work per month on an annual or fiscal year basis. If the average number of hours of work is less than one hundred (100) per month, the member shall be allowed credit only for those months he receives creditable compensation for one hundred hours of work. The cost will be determined by computing the member and employer contributions for the period of time involved plus interest compounded annually at the current actuarial rate, which shall not be picked up by the employer as described in KRS 61.560(4). Teacher aides, secretaries, custodial personnel, and cafeteria employees of a school district may purchase service credit for part-time employment prior to the 1990-91 school year which averaged eighty (80) or more hours of work per month on an annual or fiscal year basis by paying to the County Employees Retirement System a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 78.610(4), by the employer. Payment shall be by lump sum, except that the employee may pay by increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for.

(13) A retired member, who is contributing to one (1) of the state-administered retirement programs and purchases service credit under this section in the system or systems from which he is retired, will have his retirement allowance recomputed:

(a) Upon termination from employment, if the member is contributing to the same system or systems from which he was retired; or

(b) Upon completion of six (6) months' service credit as required under subsection (6) of this section, if the member is contributing to a system other than the system or systems from which he is retired.

(14) Any employee participating in one (1) of the state-administered retirement systems may obtain credit for prior or current service for any period of approved educational leave***, or for agency-approved leave to work for a work-related labor organization if the agency subsequently participated in the County Employees Retirement System,*** by paying to the respective retirement system a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(15) Any employee participating in one (1) of the state-administered retirement systems may obtain credit for prior or current service for any period of approved maternity leave granted prior to January 1, 1972, or for any period of approved sick leave without pay, by paying to the respective retirement system a delayed

contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(16) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems may purchase service credit under any of the provisions of KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 by making installment payments in lieu of a lump sum payment.

(a) The cost of the service shall be computed in the same manner as for a lump-sum payment which shall be the principal; and interest, at the actuarial rate in effect at the time the member elects to make the purchase compounded annually, shall be added for the the period that the installments are to be made. Multiple service purchases may be combined under a single installment purchase; however, no employee may make more than one (1) installment purchase at the same time. The employee may elect to stop the installment payments by notifying the retirement system; or may have the installment purchase recalculated to add one (1) or more additional service purchases or may pay by lump sum the remaining principal.

(b) Twelve (12) consecutive monthly installment payments will be made for each one thousand dollars ($1,000) or any part thereof of the total cost, except that the total number of installments shall not be less than twelve (12) and shall not exceed sixty (60).

(c) The employee shall pay the installments by payroll deduction each pay period. Upon notification by the retirement system, the employer shall report the installment payments separate from regular employee contributions on the forms or by the computer format specified by the board. The payments made under this subsection shall be considered accumulated contributions of the member and shall not be picked up by the employer pursuant to KRS 61.560(4) and no employer contributions shall be paid on the installments.

(d) The retirement system shall determine how much of the total cost represents payment for one (1) month of the service to be purchased and shall credit one (1) month of service to the member's account each time this amount has been paid. The first service credited shall represent the first calendar month of the service to be purchased and each succeeding month of service credit shall represent the succeeding months of that service.

(e) If the employee dies, retires, terminates employment, or does not continue employment in a position required to participate in the retirement system, the member, or in the case of death, the beneficiary, shall have thirty (30) days to pay the remaining principal of the purchase by lump sum. If the member or beneficiary does not pay the remaining cost, the retirement system shall refund to the member or the beneficiary the payment, payments or portion of a payment that does not represent a full month of service purchased.

(f) If the employer does not report installment payments on an employee for sixty (60) days, the installment purchase shall cease and the retirement system shall refund to the employee the payment, payments, or portion of a payment that does not represent a full month of service purchased.

(g) If payments have ceased under subsection (15)(e) or (f) of this section and the member later becomes a participating employee in one (1) of the three (3) systems administered by Kentucky Retirement Systems, the employee may complete the adjusted original installment purchase by lump sum or installment payments. If the employee elects to renew the installment purchase, the cost of the remaining service shall be recalculated in accordance with paragraph (a) of this subsection. If the original installment purchase was for multiple service purchases, the employee may not separate those purchases under a new installment purchase.

(h) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems may purchase service credit under any of the provisions of KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 by transferring funds directly from a retirement plan maintained by his employer which is a qualified plan pursuant to Section 401(a) of the Internal Revenue Code or by a rollover of funds from the plan pursuant to the rules specified in Section 402(a)(5) of the Internal Revenue Code and the Kentucky Retirement Systems shall accept the transfer or rollover. The amount shall be credited to the individual member's contribution account in the appropriate retirement system and shall be considered accumulated contributions of the member.

Specifically, and not by implication, describe the line of credit or revolving credit plan by account or other identifying number and request that the line of credit or plan be amended by reducing the maximum amount of credit which may be extended under the line of credit or the amount of the credit limit of the revolving credit plan which, in either case, may be outstanding from time to time under the line of credit or revolving credit plan, to an amount specified in the notice. The amount may not, however, be less than the balance owing under the line of credit or revolving credit plan at the time the request referred to in this paragraph is received;

2. Identify the real property covered by the mortgage referred to in subsection (2) of this section to which the request relates and give the date, volume, and first page of the records of the county clerk where the mortgage is recorded; and

3. Be accompanied by funds sufficient to pay the filing fee for recording the amendment referred to in paragraph (b) of this subsection.

(b) Within ten (10) business days after actual receipt of the request referred to in paragraph (a) of this subsection and of the funds sufficient to pay the filing fee, the lender shall record in the office of the county clerk in which the mortgage referred to in subsection (2) of this section is recorded an amendment to the mortgage reflecting the reduction in the maximum amount of credit at any time or times outstanding which may be extended under the line of credit or revolving credit plan secured by the mortgage.

(c) If within the ten (10) day period the lender fails to record the amendment to the mortgage referred to in paragraph (b) of this subsection, the debtor may record a copy of the written request referred to in paragraph (a) of this subsection upon payment of the same filing fee as provided for in an amendment to a mortgage. If the request complies with all the requirements of this section, the recording of the request shall constitute and be deemed to be an amendment to the line of credit or revolving credit plan and the mortgage to the extent described in the request.

(5) The lender shall be obligated to release the lien of the mortgage referred to in subsection (2) of this section:

(a) If the line of credit or revolving credit plan is closed or terminated in accordance with its terms and all amounts owed by the debtor thereunder are paid in full; or

(b) Upon the written request to release the mortgage signed by all debtors or their agents obligated under the line of credit or revolving credit plan, which notice shall be sent by certified mail, return receipt requested, or physically delivered to the lender. The lender shall file a properly executed satisfaction of the mortgage upon payment of the balance owing under the line of credit or revolving credit plan at the time the request is received. From and after the request, the debtor shall have no right to request or demand that the lender extend credit under the line of credit or revolving credit plan, and the lender shall be released from all obligations and commitments to extend credit thereunder.

(6) The provisions of KRS 382.330, 382.365, 382.430, and 382.520 shall not be applicable to the mortgage referred to in subsection (2) of this section.

(7) This section is not exclusive and shall not prohibit the use of other types of mortgages or other instruments given for the purpose of creating a lien on real property permitted by law.

Section 2. KRS 382.520 is amended to read as follows:

(1) In all cases where a loan is secured by a real estate mortgage, the mortgage originally executed and delivered by the borrower to the lender shall secure payment of all renewals and extensions of the loan and the note evidencing it, whether so provided in the mortgage or not.

(2) The mortgage referred to in subsection (1) of this section may secure any additional indebtedness, whether direct, indirect, existing, future, contingent or otherwise, to the extent expressly authorized by the mortgage, if the mortgage by its terms stipulates the maximum additional indebtedness which may be secured thereby. Except as provided in subsection (3) of this section, the mortgage lien authorized by this subsection shall be superior to any liens or encumbrances of any kind created after recordation of such mortgage, even to the extent of sums advanced by a lender with actual or constructive notice of a subsequently created lien, provided, however, any mortgagee upon receipt of a written request of a mortgagor must release of record the lien to secure additional indebtedness as exceeds the balance of such additional indebtedness at the time of ***the*** [~~such~~] request.

(3) (a) The written request referred to in subsection (2) of this section shall be signed by the mortgagor

or his agent or attorney, and shall set forth a description of the real property to which the request relates, the date, parties to, the volume and initial page of the record of the mortgage referred to in subsection (1) of this section, and a description of the nature, amount and holder of the lien or encumbrance which the mortgagor intends to place upon such real property. ***The*** [~~Such~~] request shall be deemed to have been received by the holder of the mortgage referred to in subsection (1) of this section only when delivered to ***the*** [~~such~~] holder by certified mail, return receipt requested, at the address of the holder appearing of record on ***the*** [~~such~~] mortgage or an assignment thereof;

(b) If within ten (10) business days after receipt of the written request referred to in this subsection, the holder of the mortgage referred to in subsection (1) of this section fails to release that amount of the lien to secure additional indebtedness to the extent described in ***the*** [~~such~~] request, the mortgagor may record in the office of the county clerk in which the mortgage referred to in subsection (1) of this section is recorded a copy of ***the*** [~~such~~] written request upon payment of the same filing fee as provided for a release of a mortgage;

(c) If, after a copy of ***the*** [~~such~~] written request is recorded, an advance is made by the holder of the mortgage referred to in subsection (1) of this section, then the lien of ***the*** [~~such~~] mortgage for the unpaid balance of the advance so made shall be subordinate to the lien or encumbrance described in ***the*** [~~such~~] request[~~; provided, that any advance made pursuant to a line of credit shall not be subordinate to the lien or encumbrance described in such request unless such request specifically, and not by implication, describes such line of credit by account or other identifying number and states that any advance thereafter made pursuant to such plan is intended to be subordinated as aforesaid~~].

(1) An income beneficiary is entitled to income from the date specified in the trust instrument, or, if none is specified, from the date an asset becomes subject to the trust. In the case of an asset becoming subject to a trust by reason of a will, it shall become subject to the trust as of the date of the death of the testator even though there is an intervening period of administration of the testator's estate.

(2) In the administration of a decedent's estate or an asset becoming subject to a trust by reason of a will:

(a) Receipts due but not paid at the date of death of the testator shall be principal; and

(b) Receipts in the form of periodic payments, other than corporate distributions to stockholders, including rent, interest, or annuities, not due at the date of the death of the testator shall be treated as accruing from day to day. That portion of the receipt accruing before the date of death shall be principal, and the balance shall be income.

(3) In all other cases, any receipt from an income producing asset shall be income even though the receipt was earned or accrued in whole or in part before the date when the asset became subject to the trust.

(4) On termination of an income interest, the income beneficiary whose interest is terminated, or his estate, to the extent the income beneficiary would have been entitled but for the termination of the income interest, shall be entitled to:

(a) Income undistributed on the date of termination;

(b) Income due but not paid to the trustee on the date of termination; and

(c) Income in the form of periodic payments, other than corporate distributions to stockholders, including rent, interest, or annuities, not due on the date of termination, accrued from day to day.

(5) Corporate distributions to stockholders shall be treated as due on the day fixed by the corporation for determination of stockholders of record entitled to distribution or, if no date is fixed, on the date of declaration of the distribution by the corporation.

SECTION 5. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) Unless the will otherwise provides and subject to subsection (2), all expenses incurred in connection with the settlement of a decedent's estate, including, but not limited to, debts, funeral expenses, estate and inheritance taxes, interest and penalties concerning taxes, family allowances, fees of attorneys and accountants, compensation of personal representatives except commissions computed on income, and court costs shall be charged against the principal of the estate.

(2) Unless the will otherwise provides, income from the assets of a decedent's estate after the death of the testator and before distribution, including income from property used to discharge liabilities, shall be determined in accordance with the rules applicable to a trustee under this Act and distributed as follows:

(a) To specific non-pecuniary legatees and devisees, the income from the property bequeathed or devised to them respectively, less taxes, ordinary repairs, and other expenses attributable to management and operation of the property, and taxes imposed on income derived from the property, excluding taxes on capital gains, which accrue during the period of administration;

(b) To all other legatees and devisees, except specific legatees of pecuniary bequests not in trust, the balance of the income, less the balance of taxes, ordinary repairs, and other expenses attributable to management and operation of all property from which the estate is entitled to income, and the balance of taxes imposed on income, excluding taxes on capital gains, which accrue during the period of administration, in proportion to their respective interests in the undistributed assets of the estate computed at times of distribution on the basis of inventory value.

(3) To specific legatees of pecuniary bequests not in trust, who shall receive only the sum provided in the will, no income shall be distributed except as otherwise provided in KRS 394.520.

(4) Income received by a trustee under subsection (2) shall be treated as income of the trust.

SECTION 6. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) Corporate distributions of shares of the distributing corporation, including distributions in the form of a stock split or stock dividend, shall be principal. A right to subscribe to shares or other securities issued by the distributing corporation accruing to stockholders on account of their stock ownership and the proceeds of any sale of the right shall be principal.

(2) Except to the extent that the corporation indicates that some part of a corporate distribution is a settlement of preferred or guaranteed dividends accrued since the trustee became a stockholder or is in lieu of an ordinary cash dividend, a corporate distribution shall be principal if the distribution is pursuant to:

(a) A call of shares;

(b) A merger, consolidation, reorganization, or other plan by which assets of the corporation are acquired by another corporation; or

(c) A total or partial liquidation of the corporation, including any distribution which the corporation indicates is a distribution in total or partial liquidation or any distribution of assets, including cash pursuant to a court decree or final administrative order by a government agency ordering distribution of the particular assets.

(3) Distributions made from ordinary income, as it is determined for federal income tax purposes, by a regulated investment company or by a trust qualifying and electing to be taxed under federal law as a real estate investment trust shall be income. All other distributions made by a regulated investment company or by a qualifying real estate investment trust including distributions from capital gains, depreciation, or depletion, whether in the form of cash or an option to take new stock or cash or an option to purchase additional shares, shall be principal.

(4) Except as provided in subsection (1), (2), and (3), all corporate distributions shall be income, including cash dividends, distributions of or rights to subscribe to shares or securities or obligations of corporations other than the distributing corporation, and the proceeds of the rights or property distributions. Except as provided in subsections (2) and (3), if the distributing corporation gives a stockholder an option to receive a distribution either in cash or in its own shares, the distribution chosen shall be income.

(5) The trustee may rely upon any statement of the distributing corporation as to any fact relevant under any provision of this Act concerning the source or character of dividends or distributions of corporate assets.

SECTION 7. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) Bonds or other obligations for the payment of money shall be principal at their inventory value, except as provided in subsection (2) for discount bonds. No provision shall be made for amortization of bond premiums or for accumulation for discount. The proceeds of sale, redemption, or other disposition of the bonds or obligations shall be principal.

(2) The increment in value of a bond or other obligation for the payment of money, bearing no stated interest or containing no provision for annual interest payments, but payable or redeemable at maturity or at a future time at an amount in excess of the price at which it was issued or purchased, if purchased after issuance, shall be distributable as income. If the increment in value accrues and becomes payable pursuant to a fixed schedule of appreciation, it may be distributed to the beneficiary who was the income beneficiary at the time of increment from the first principal cash available or, if none is available, when the increment is realized by sale, redemption, or other disposition. The trustee may distribute from principal to the income beneficiary an amount equal to the income tax payable by the beneficiary as a result of the original issue discount reportable by the beneficiary for income tax purposes. When any amount is distributed as income but out of principal under this section, the principal shall be reimbursed for the distributed amount from the increment when realized.

SECTION 8. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) If any part of the principal is used in the continuance of a business, the net profits of the business, computed in accordance with generally accepted accounting practices for a comparable business, shall be income. If a loss results in any fiscal or calendar year, the loss shall fall on principal and shall not be carried into any other fiscal or calendar year for purposes of calculating net income.

(2) Generally accepted accounting practice shall be used to determine income from an agricultural or farming operation, including the raising of animals or the operation of a nursery.

SECTION 9. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) If any part of the principal consists of a right to receive royalties, overriding or limited royalties, working interests, production payments, net profit interests, other interests in minerals or other natural resources in, on or under land, the receipts after taking the natural resources from the land shall be allocated as follows:

(a) If received as rent on a lease or extension payments on a lease, the receipts shall be income;

(b) If received from a production payment, the receipts shall be income to the extent of any factor for interest or its equivalent provided in the instrument governing the production payment. There shall be allocated to principal the fraction of the balance of the receipts which the unrecovered cost of the production payment bears to the balance owed on the production payment, exclusive of any factor for interest or its equivalent. The receipts not allocated to principal shall be income;

(c) If received as a royalty, overriding or limited royalty, or bonus, or from a working, net profit, or any other interest in minerals or other natural resources, receipts not provided for in the preceding paragraphs of this section shall be apportioned on a yearly basis in accordance with this paragraph, whether or not any natural resource was being taken from the land at the time the trust was established. There shall be added to principal as an allowance for depletion the percentage of gross receipts that is allowed to the trust as a deduction for depletion in computing taxable income for federal income tax purposes, but not to exceed fifty percent (50%) of the net receipts remaining after payment of all expenses, direct and indirect, computed without allowance for depletion. The balance of the gross receipts after payment therefrom of all expenses, direct and indirect, shall be income.

(2) If a trustee, on the effective date of this Act, held an item of depletable property of a type specified in this section, he shall allocate receipts from the property in the manner used before the effective date of this Act, but as to all depletable property acquired after the effective date of this Act by an existing or new trust, the method of allocation provided herein shall be used.

(3) This section shall not apply to timber, water, soil, sod, dirt, turf, or mosses.

SECTION 10. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

If any part of the principal consists of land from which merchantable timber may be removed, the receipts from taking the timber from the land shall be allocated in accordance with paragraph (c) of subsection (1) of Section 2.

SECTION 11. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

Except as provided in Sections 9 and 10, if the principal consists of property subject to depletion, including leaseholds, patents, copyrights, royalty rights, and rights to receive payments on a contract for deferred compensation, receipts from the property, not in excess of five percent (5%) per year of its inventory value, shall be income, and the balance shall be principal.

SECTION 12. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) Except as otherwise provided in this section, a portion of the net proceeds of sale of any part of principal which has not produced an average net income of at least one percent (1%) per year of its inventory value for more than a year, including as income the value of any beneficial use of the property by the income beneficiary, shall be treated as delayed income to which the income beneficiary is entitled as provided in this section. The net proceeds of sale shall be the gross proceeds received, including the value of any property received in substitution for the property disposed of, less the expenses, including capital gains tax, if any, incurred in disposition and less any carrying charges paid while the property was underproductive.

(2) The sum allocated as delayed income shall be the difference between the net proceeds and the amount which, had it been invested as simple interest at five percent (5%) per year while the property was underproductive, would have produced the net proceeds. This sum, plus any carrying charges and expenses previously charged against income while the property was underproductive, less any income received by the income beneficiary from the property and less the value of any beneficial use of the property by the income beneficiary, shall be income, and the balance shall be principal.

(3) An income beneficiary or his estate shall be entitled to delayed income under this section as if it accrued from day to day during the time he was a beneficiary.

(4) If principal subject to this section is disposed of by conversion into property which cannot be apportioned easily, including land or mortgages such as realty acquired by or in lieu of foreclosure, the income beneficiary shall be entitled to the net income from any property or obligation into which the original principal is converted while the substituted property or obligation is held. If within five (5) years after the conversion the substituted property has not been further converted into easily apportionable property, no allocation as provided in this section shall be made.

(5) This section shall not apply to securities listed on a national securities exchange or traded over the counter if the securities are held in a broadly diversified portfolio designed to produce a reasonable return appropriate to the purposes of the trust.

SECTION 13. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) The following charges shall be made against income:

(a) Ordinary expenses incurred in connection with the administration, management, or preservation of the trust property, including regularly recurring taxes assessed against any portion of the principal, water rates, premiums on insurance taken upon the interests of the income beneficiary, remainderman, or trustee, interest paid by the trustee, and ordinary repairs, trustee's compensation except commissons computed on principal;

(b) A reasonable allowance for depreciation on property subject to depreciation under generally accepted accounting practices, but no allowance shall be made for depreciation of that portion of any real property used by a beneficiary as a residence or for depreciation of any property held by the trustee on the effective date of this Act for which the trustee is not then making an allowance for depreciation;

(c) Court costs, attorney's fees, and other fees incurred with respect to regular accountings, unless the court directs otherwise;

(d) All expenses reasonably incurred for current management of principal and application of income; and

(e) Any tax levied upon receipts defined as income under this Act or the trust instrument and payable by the trustee.

(2) If charges against income are of an unusual amount, the trustee may by means of reserves or other reasonable means charge them over a reasonable period of time and withhold from distribution sufficient sums to regularize distributions.

(3) The following charges shall be made against principal:

(a) Trustee's compensation not chargeable to income under subsection (1) of this section, special compensation of trustee, expenses reasonably incurred in connection with principal, court costs and attorney's fees not chargeable to income under subsection (1) of this section and trustee's compensation computed on principal as an acceptance, distribution, or termination fee;

(b) Charges not provided for in subsection (1), including the cost of investing and reinvesting principal; the payments on principal of any indebtedness, including a mortgage amortized by periodic payments of principal; expenses for preparation of property for rental or sale; and, unless the court directs otherwise, expenses incurred in maintaining or defending any action to construe the trust or protect it or the property or assure the title of any trust property;

(c) Extraordinary repairs or expenses incurred in making a capital improvement to principal, including special assessments; but a trustee may establish an allowance for depreciation out of income to the extent permitted by paragraph (b) of subsection (1) of this section and by Section 8;

(d) Any tax levied upon profit, gain, or other receipts allocated to principal notwithstanding denomination of the tax as an income tax by the taxing authority; and

(e) If an estate or inheritance tax is levied in respect of a trust in which both an income beneficiary and a remainderman have an interest, any amount apportioned to the trust, including interest and penalties, even though the income beneficiary also has rights in the principal.

(4) Regularly recurring charges payable from income shall be apportioned to the same extent and in the same manner that income is apportioned under Section 4.

SECTION 14. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) The provisions of Section 13 so far as applicable and excepting those dealing with costs of, or special taxes or assessments for, improvements to property, shall govern the apportionment of expenses between income beneficiary and remainderman where no trust has been created, subject to any legal agreement of the parties or any specified direction of the taxing or other statutes; but where either the income beneficiary or remainderman has incurred an expense for the benefit of his own estate and without the consent or agreement of the other, he shall pay the expense in full.

(2) Subject to the exceptions stated in subsection (1) of this section, the cost of, or special taxes or assessments for, an improvement representing an addition of value to property forming part of the principal shall be paid by the income beneficiary, where the improvement cannot reasonably be expected to outlast the income beneficiary's interest. In all other cases, a portion thereof only shall be paid by the income beneficiary while the remainder shall be paid by the remainderman. The portion shall be ascertained by taking that percentage of the total which is found by dividing the present value of the income beneficiary's interest by the present value of an estate of the same form as that of the income beneficiary except that it is limited for a period corresponding to the reasonably expected duration of the improvement. The computation of present values shall be made on the expectancy basis set forth in the American Experience Tables of Mortality and no other evidence of duration or expectancy shall be considered.

SECTION 15. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

Except as specifically otherwise provided in the trust instrument, or in this Act, this Act shall govern the ascertainment of income and principal and the apportionment of receipts and expenses between income beneficiaries and remaindermen in all cases where principal has been established with or without the

interposition of a trust, including, but not limited to, any receipt or expense received or incurred by a trust, a legal life estate, an estate for a term of y ears, or an estate of a decedent.

SECTION 16. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

This Act shall be construed to effectuate its general purpose to make uniform the law of those states which enact it.

SECTION 17. A NEW SECTION OF KRS CHAPTER 386 IS CREATED TO READ AS FOLLOWS:

(1) This Act shall take effect on January 1, 1993.

(2) Except as specifically otherwise provided in the trust instrument or in this Act, this Act shall apply to any receipt or expense received or incurred after the effective date of this Act by any trust, legal life estate, or estate for a term of years whether established before or after the effective date of this Act and whether the asset involved was acquired by the trustee before or after the effective date of this Act and to any receipt or expense received or incurred by an estate of a decedent dying on or after the effective date of this Act.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 395 IS CREATED TO READ AS FOLLOWS:

(1) A fiduciary may, prior to filing a periodic or final settlement and prior to a distribution of assets, file with the court a proposed settlement. The proposed settlement shall be set for hearing and notice given as for any other settlement except that beneficiaries of the estate, other than nonresiduary legatees who have received and receipted for their legacies, shall also receive notice from the fiduciary by mail at least twenty (20) days prior to the hearing date. The proposed settlement shall set forth all assets and disbursements previously made; shall indicate assets on hand and anticipated to be received subsequent to the date of the proposed settlement and prior to the filing of the periodic or final settlement; and shall further indicate the manner in which the remaining and anticipated assets are proposed to be distributed. The proposal may set forth which assets are to be distributed in kind and to whom and which assets may be liquidated for distribution of cash or for payment of debts, costs of administration, or pecuniary legacies. The proposal may also indicate claims proposed to be allowed or disallowed, in whole or in part, and may also indicate fees and commissions proposed to be paid to the fiduciary and his attorney. The inclusion of evidence and vouchers to accompany the proposal shall not be necessary unless required by the court upon exceptions filed. At the hearing, if no exceptions are filed, the proposal, if made according to law, shall be approved. If exceptions are filed, other evidence besides that reported may be heard, and the court shall, upon the whole case, reject, confirm, alter, or amend the proposal. Section 2. KRS 21.370 is amended to read as follows:

(1) Except as provided in subsection (2) of KRS 21.410 and in subsection (2) of KRS 21.420, no benefits shall be payable under KRS 21.350 to 21.480 to any member or to his surviving spouse, unless he has completed at least eight (8) years of service, including service before becoming a member. (2) A member who has qualified for benefits pursuant to this section may transfer to the judicial retirement plan up to ten (10) years of service credit which he has earned in the Kentucky Employees' Retirement System. If the member elects to transfer his Kentucky Employees' Retirement System service credit, that system shall transfer to the judicial retirement fund an amount equal to the employee's and employer's contributions attributable to that credit, together with interest on the contributions from the date made to the date of transfer at the actuarially assumed interest rate of the Kentucky Employees' Retirement System in effect at the time the contributions were made, compounded annually at that same interest rate. The member shall

be entitled to the transferred service credit, at the rate at which he qualifies pursuant to KRS 21.400, when he pays the total difference between the amount of the funds transferred by the Kentucky Employees' Retirement System and the cost of the credit to the judicial retirement plan, as determined by the actuary for the judicial retirement plan. ***The payments made under this section shall be considered accumulated contributions of the member and shall not be picked up by the employer pursuant to KRS 21.360(6).***

Section 3. KRS 6.515 is amended to read as follows:

(1) Service credit in the legislators' retirement plan shall be acquired only by service as a legislator after July 1, 1980, while a member of the plan, by transfer of credit as provided in KRS 6.505, or by purchase of military service credit pursuant to subsection (2) of this section, or by transfer of credit as provided in subsection (6) of this section.

(2) (a) Any active member of the legislators' retirement plan who has at least five (5) years of service credit in the legislators' retirement plan, or his beneficiary acting in his place if the member dies prior to retirement, shall receive service credit for a maximum of four (4) years for his period of service in the armed forces of the United States, if his discharge therefrom is honorable and he has not been credited with the service by any other retirement system administered by the Commonwealth of Kentucky, by paying the retirement system fifty percent (50%) of the actuarial cost of the service as determined by the board of trustees, based on assumptions used in the most recent biennial evaluation. The service credit shall be awarded and the cost shall be determined in conformity with the rate which applies to the legislator in question pursuant to KRS 6.520. Service credit awarded pursuant to this subsection shall be equivalent, for all purposes of the legislators' retirement plan, to other service credit earned in the plan.

Payment of the total or the increment may be made by lump-sum or by monthly installments through payroll deduction. If the member chooses to pay by installment, the cost of the service credit shall be computed in the same manner as for a lump-sum payment, which shall be the principal. Interest, at the annual actuarial rate in effect at the time each payment is made, shall be added to each monthly payment at the rate of one-twelfth (1/12) of the annual interest rate applied to the declining principal amount. Installment purchases shall be for no less than twelve (12) nor more than sixty (60) months. If the member leaves office before completing his installment payments, he may satisfy his contract by a lump-sum payment of the remaining principal amount, but no further installment payments shall be accepted thereafter. In this case, the member shall be credited with the military service credit for which he has paid, in years or months but no fraction less than a full month, and any payment remaining after credit for full months has been awarded shall be returned to the member.

(c) The payments made under this section shall be considered accumulated contributions of the member and shall not be picked-up by the employer pursuant to KRS 6.505(2).

(d) No veteran shall be eligible to purchase military service credit under this section if he is receiving a military pension or is eligible for a military pension in the future, unless the military pension is for service primarily on inactive duty in a reserve component of the armed forces, or is a disability pension which does not exceed five hundred dollars ($500) monthly.

(3) If spouses both serve in the General Assembly, but not simultaneously, they may combine their service credit in the legislators' retirement plan for all purposes of that plan into a single account, and may jointly designate to whom the service retirement allowance shall be paid. The designation shall not be changed once it is made. Assuming equal service credit, the benefits paid, pursuant to this section, to a legislator and his or her spouse who also served as a legislator shall not exceed the benefits that the same legislator and his or her spouse would receive if the spouse had not served as a legislator.

(4) In the event of divorce, rights to benefits shall be considered marital property subject to the provisions of KRS 403.190.

(5) A former legislator whose spouse currently serves in the General Assembly and who received a refund of contributions pursuant to KRS 21.460 may repurchase service credit which he or she previously had by repaying the amount refunded with interest at six percent (6%) per annum, and the service credit shall become part of the single account authorized by subsection (2) of this section.

(6) A member who has qualified for benefits pursuant to KRS 6.525(1) may, until July 1, 1991, transfer to the legislators' retirement plan up to ten (10) years of service credit which he has earned in the County

Employees' Retirement System. If the member elects to transfer his County Employees' Retirement System service credit, that system shall transfer to the legislators' retirement fund an amount equal to the employee's and employer's contributions attributable to that credit, together with interest on the contributions from the date made to date of transfer at the actuarially assumed interest rate of the County Employees' Retirement System in effect at the time the contributions were made, compounded annually at that same interest rate. The member shall be entitled to the transferred service credit, at the rate at which he qualifies pursuant to KRS 6.520, when he pays the total difference between the amount of the funds transferred by the County Employees' Retirement System and the cost of the credit to the legislators' retirement plan, as determined by the actuary for the legislators' retirement plan. ***The payments made under this section shall be considered accumulated contributions of the member and shall not be picked up by the employer pursuant to KRS 6.505(2).***

The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer. Payment shall be by lump sum except that the employee may pay by

increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for.

(3) Any employee participating in one (1) of the state-administered retirement systems who did not elect membership in the Kentucky Employees Retirement System, as provided in subsection (2) of KRS 61.525, may obtain credit in the Kentucky Employees Retirement System for prior service and for current service by paying to the system a delayed contribution payment for the service he would have received had he elected membership. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer. Payment shall be by lump sum except that the employee may pay by increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for.

(4) An employee may obtain credit in the Kentucky Employees Retirement System for current service between July 1, 1956, and the effective date of participation of his department by paying to the system a delayed contribution payment for the service he would have received had his department participated on July 1, 1956. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer. Payment shall be by lump sum except that the employee may pay by increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for. Effective August 1, 1988, each employee of the Kentucky Racing Commission who was employed by the racing commission on the date that agency first participated in the Kentucky Employees Retirement System, whether or not the employee was eligible to participate in the retirement system on that date, shall receive current service credit for all employment with the racing commission from July 1, 1956, to the date the employee first began participating in the retirement system. The cost of the service credit shall be paid at the time of each member's retirement by the racing commission and shall be credited to the retirement allowance account.

(5) An employee who is or was an employee of a county participating in the County Employees Retirement System which did not participate in the system effective July 1, 1958, may obtain credit in the County Employees Retirement System for current service between July 1, 1958, and the effective date of participation of his county by paying to the County Employees Retirement System a delayed contribution payment for the service he would have received had his county participated on July 1, 1958. An employee participating in the Kentucky Employees Retirement System or the County Employees Retirement System who was formerly employed by an area development district created pursuant to KRS 147A.050 which does not participate in the County Employees Retirement System may obtain credit for the period of his service with the area development district by paying to the retirement system in which he participates the full cost of the service credit purchased, as determined by the system actuary. Payment shall be by lump sum except that the employee may pay by increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for.

(6) Effective August 1, 1988, service credit obtained under subsections (1) to (5), (8) to (12), (14) and (15) of this section shall be disallowed and the recontribution of refund, including interest as determined by the board or other payment, if any, shall be paid to the member, upon request, if the member does not obtain for service performed six (6) months' current service credit in one (1) of the state-administered retirement systems or as an employee of a parted employer. The service requirement shall be waived if the member dies or becomes disabled as provided for by KRS 61.600.

(7) The members shall not receive benefit of service for the same period of time in another public defined benefit retirement fund.

(8) Any employee participating in one (1) of the state-administered retirement systems who has obtained for service performed six (6) months' current service credit in one (1) of the retirement systems administered by the Kentucky Retirement Systems, who formerly worked for a state university in a position which would have qualified as a regular full-time position had the university been a participating department, and who did not have the option to be covered at the university by an advance funded retirement program in which he could vest during his period of employment, or did not participate in a retirement system which can be consolidated with other accounts pursuant to KRS 61.680(2), may obtain credit in the County Employees Retirement System, the Kentucky Employees Retirement System or the State Police Retirement System for prior and current service by paying either retirement system a delayed contribution payment for the service he would have received had his period of university employment been covered by the county employees, Kentucky Employees Retirement System or State Police Retirement System. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer.

(9) (a) Effective August 1, 1980, any county participating in the County Employees Retirement System may purchase current service, between July 1, 1958, and participation date of the county, for present employees of the county who have obtained coverage under KRS 78.540(2);

(b) Effective July 1, 1973, any department participating in the Kentucky Employees Retirement System may purchase current service between July 1, 1956, and participation date of the department, for present employees of the department who were employees on the participation date of the department and elected coverage under KRS 61.525(2);

(c) Cost of the service credit purchased under this subsection shall be determined by computing the discounted value of the additional service credit based on an actuarial formula recommended by the board's consulting actuary and approved by the board. A department shall make payment for such service credit within the same fiscal year in which the option is elected. The county shall establish a payment schedule subject to approval by the board for payment of such service credit. The maximum period allowed in a payment schedule shall be ten (10) years with interest at the rate actuarially assumed by the board; however, a shorter period is desirable and the board may approve any schedule provided it is not longer than a ten (10) year period;

(d) If a county or department elects the provisions of this subsection, any present employee who would be eligible to receive service credit under the provisions of this subsection and has purchased service credit under subsection (4) or (5) of this section shall have his payment for such service credit refunded with interest at the rate paid under KRS 61.575 or 78.640;

(e) Any payments made by a county or department under this subsection shall be deposited to the retirement allowance account of the proper retirement system and these funds shall not be considered accumulated contributions of the individual members.

(10) Interest paid by a member of the Kentucky Employees Retirement System, County Employees Retirement System, or State Police Retirement System under this section or other similar statutes under KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 prior to June 19, 1976, shall be credited to the individual member's contribution account in the appropriate retirement system and considered as accumulated contributions of the member.

(11) Members who served as assistants to officers and employees of the General Assembly who were unable to acquire service under KRS 61.510(20) may purchase credit for such service performed after January 1, 1960, provided the service purchased when added to other accumulated service will total at least forty-eight (48) months***, and members who were employed by the Legislative Research Commission for at least six (6) legislative bienniums, who were unable to acquire service credit due to the requirements of KRS 61.510(21), may purchase credit for their six (6) or more legislative bienniums served after January 1, 1960. The employee shall be credited with a month of current service for each month he occupied his position during the legislative biennium. The creditable compensation of the employee shall be calculated as having been received in equal amounts for each month of the biennium.*** Service credit under this ***subsection*** [~~section~~] shall be obtained by the payment of a delayed contribution ***payment*** which shall not be picked up by the employer as described in KRS 61.560(4).

(12) Effective August 1, 1988, any employee participating in one (1) of the state-administered retirement systems may purchase service credit for seasonal, emergency, or temporary employment or part-time employment averaging one hundred (100) or more hours of work per month on an annual or fiscal year basis. If the average number of hours of work is less than one hundred (100) per month, the member shall be allowed credit only for those months he receives creditable compensation for one hundred hours of work. The cost will be determined by computing the member and employer contributions for the period of time involved plus interest compounded annually at the current actuarial rate, which shall not be picked up by the employer as described in KRS 61.560(4). Teacher aides, secretaries, custodial personnel, and cafeteria employees of a school district may purchase service credit for part-time employment prior to the 1990-91 school year which averaged eighty (80) or more hours of work per month on an annual or fiscal year basis by paying to the County Employees Retirement System a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 78.610(4), by the employer. Payment shall be by lump sum, except that the employee may pay by increments. The minimum increment payment shall be for a full year of service unless there is a fraction remaining after all full years have been paid for.

(13) A retired member, who is contributing to one (1) of the state-administered retirement programs and purchases service credit under this section in the system or systems from which he is retired, will have his retirement allowance recomputed:

(a) Upon termination from employment, if the member is contributing to the same system or systems from which he was retired; or

(b) Upon completion of six (6) months' service credit as required under subsection (6) of this section, if the member is contributing to a system other than the system or systems from which he is retired.

(14) Any employee participating in one (1) of the state-administered retirement systems may obtain credit for prior or current service for any period of approved educational leave by paying to the respective retirement system a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(15) Any employee participating in one (1) of the state-administered retirement systems may obtain credit for prior or current service for any period of approved maternity leave granted prior to January 1, 1972, or for any period of approved sick leave without pay, by paying to the respective retirement system a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(16) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems may purchase service credit under any of the provisions of KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 by making installment payments in lieu of a lump sum payment.

(a) The cost of the service shall be computed in the same manner as for a lump-sum payment which shall be the principal; and interest, at the actuarial rate in effect at the time the member elects to make the purchase compounded annually, shall be added for the the period that the installments are to be made. Multiple service purchases may be combined under a single installment purchase; however, no employee may make more than one (1) installment purchase at the same time. The employee may elect to stop the installment payments by notifying the retirement system; or may have the installment purchase recalculated to add one (1) or more additional service purchases or may pay by lump sum the remaining principal.

(b) Twelve (12) consecutive monthly installment payments will be made for each one thousand dollars ($1,000) or any part thereof of the total cost, except that the total number of installments shall not be less than twelve (12) and shall not exceed sixty (60).

(c) The employee shall pay the installments by payroll deduction each pay period. Upon notification by the retirement system, the employer shall report the installment payments separate from regular employee contributions on the forms or by the computer format specified by the board. The payments made under this subsection shall be considered accumulated contributions of the member and shall not be picked up by the employer pursuant to KRS 61.560(4) and no employer contributions shall be paid on the installments.

(d) The retirement system shall determine how much of the total cost represents payment for one (1) month of the service to be purchased and shall credit one (1) month of service to the member's account each time this amount has been paid. The first service credited shall represent the first calendar month of the service to be purchased and each succeeding month of service credit shall represent the succeeding months of that service.

(e) If the employee dies, retires, terminates employment, or does not continue employment in a position required to participate in the retirement system, the member, or in the case of death, the beneficiary, shall have thirty (30) days to pay the remaining principal of the purchase by lump sum. If the member or beneficiary does not pay the remaining cost, the retirement system shall refund to the member or the beneficiary the payment, payments or portion of a payment that does not represent a full month of service purchased.

(f) If the employer does not report installment payments on an employee for sixty (60) days, the installment purchase shall cease and the retirement system shall refund to the employee the payment, payments, or portion of a payment that does not represent a full month of service purchased.

(g) If payments have ceased under subsection (15)(e) or (f) of this section and the member later becomes a participating employee in one (1) of the three (3) systems administered by Kentucky Retirement Systems, the employee may complete the adjusted original installment purchase by lump sum or installment payments. If the employee elects to renew the installment purchase, the cost of the remaining service shall be recalculated in accordance with paragraph (a) of this subsection. If the original installment purchase was for multiple service purchases, the employee may not separate those purchases under a new installment purchase.

(h) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems may purchase service credit under any of the provisions of KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 by transferring funds directly from a retirement plan maintained by his employer which is a qualified plan pursuant to Section 401(a) of the Internal Revenue Code or by a rollover of funds from the plan pursuant to the rules specified in Section 402(a)(5) of the Internal Revenue Code and the Kentucky Retirement Systems shall accept the transfer or rollover. The amount shall be credited to the individual member's contribution account in the appropriate retirement system and shall be considered accumulated contributions of the member.

Section 2. The following KRS section is repealed:

61.554 Persons employed by Legislative Research Commission for 6 legislative bienniums may purchase credit in Kentucky Employees Retirement System.

This method shall be used beginning with the 1990 actuarial valuation***, and with the 1992 actuarial valuation in the case of the insurance fund***. The initial thirty (30) year amortization period shall begin with the 1990 valuation***, and with the 1992 actuarial valuation in the case of the insurance fund***. Any significant increase in past service liability due to benefit improvements after the 1990 valuation***, or the 1992 valuation in the case of the insurance fund,*** shall be amortized using the level-percentage-of-payroll amortization method over a separate thirty (30) year period commencing in the year of the actuarial valuation in which the benefit improvements are first reflected.

(2) The normal contribution rate shall be determined by the entry age normal cost funding method. The past service liability shall be determined by actuarial method consistent with the methods prescribed for determining the normal contribution rate. Normal contributions and the past service liability contribution shall be determined on actuarial bases adopted by the board.

(3) Normal contribution and the past service contribution rates shall be determined by the board on the basis of the annual actuarial valuation last preceding the July 1 of a new biennium. (4) The board shall advise each employer prior to the beginning of each biennium, or prior to July 1 of the second year of a biennium, of any change in the employer contribution rate. Based on the employer contribution rate, each employer shall include in the budget sufficient funds to pay the employer contributions as determined by the board under subsections (1) to (3) of this section.

HJR 19, A JOINT RESOLUTION directing the Transportation Cabinet to study replacing the section of U.S. 421 between Harlan and Hyden.

WHEREAS, a major highway in the network of interstate connectors, U.S. 421 enters Kentucky in Trimble County across the river from Madison, Indiana, and exits the Commonwealth just south of Harlan, Kentucky; and

WHEREAS, the 1990 Highway Needs Task Force of the Legislative Research Commission identified three segments of U.S. 421 that are inadequate and in need of reconstruction; and

WHEREAS, the section of U.S. 421 between Harlan, Kentucky and Hyden, Kentucky, was one of the three segments identified as needing improvement; and

WHEREAS, a major factor that contributes to the isolation of this area of the Commonwealth is that Harlan and Leslie Counties are 25 miles away from a continuous four-lane highway; and

WHEREAS, the time the citizens of Harlan are required to travel to reach an interstate is unduly lengthened because the section of U.S.421 between Harlan and Hyden is extremely narrow, lacks shoulders, and has numerous dangerous curves in need of realignment; and

WHEREAS, the reconstruction of this route would provide the citizens of Southeast Kentucky with a safer and quicker access to the Daniel Boone Parkway and Interstate 75 at London, as well as Interstate 81 in Virginia;

NOW, THEREFORE,

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

Section 1. That the Transportation Cabinet shall study the feasibility of replacing the section of U.S. 421 between Harlan, Kentucky and Hyden, Kentucky.

Section 2. That the scope of the study shall include cost estimates for replacing the section of U.S 421 between Harlan and Hyden, and a time schedule for the design, right-of-way acquisition, utility relocation, and construction phases necessary to complete the project.

Section 3. That the Transportation Cabinet shall report its findings to the Interim Joint Committee on Transportation by no later than October 31, 1993.

Section 4. That a copy of this Resolution be transmitted to Mr. Don Kelly, Secretary of the Transportation Cabinet.

The Committee Amendment No. 1 to **HJR 19** is as follows:

Amend printed copy of **HJR 19** as follows:

On page 2, line 11, after the date "***October 31***," by deleting "***1993***" and inserting in lieu thereof "***1994***".

HJR 25, A JOINT RESOLUTION extending the Task Force to Study Transportation Needs.

WHEREAS, during the 1990-91 interim the Legislative Research Commission created a special task force to study transportation needs throughout the Commonwealth; and

WHEREAS, the initial focus of this task force was to develop a long-range transportation plan that objectively ranks highway projects, funding, and completion of highway projects, as well as continuity in the executive branch administration of a long-range plan; and

WHEREAS, even though the task force issued a detailed report in December of 1991, the findings and recommendations centered on highway needs; and

WHEREAS, the need to study and develop an intermodal transportation system is critical in Kentucky as the nation works toward a system that "shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the nation's preeminent position in international commerce";

NOW, THEREFORE,

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

Section 1. That the Task Force to Study Transportation Needs is extended through the 1992-93 interim for the purpose of studying how to develop and finance an intermodal transportation system. The task force shall report its findings and recommendations to the 1994 General Assembly.

Section 2. That the task force shall be composed of the following members:

(a) Four (4) members of the Kentucky House of Representatives;

(b) Three (3) members of the Kentucky Senate;

(c) Three (3) members appointed by the Speaker of the House of Representatives and the President Pro Tem of the Senate with knowledge in the following areas:

1. One (1) shall be knowledgeable in the areas of rail and water transportation;

2. One (1) shall be knowledgeable in the area of air transportation; and

3. One (1) shall be knowledgeable in the area of land transportation; and

(d) Six (6) members, one (1) from each congressional district, appointed by the Governor who represent the public and private sectors.

Section 3. That members of the task force shall be appointed within one (1) calendar month from the effective date of this Joint Resolution. The Legislative Research Commission shall appoint the co-chairmen of the task force. If a vacancy occurs, it shall be filled as originally appointed.

Section 4. That members of the task force shall receive necessary subsistence and travel expenses.

Section 5. That the task force may conduct meetings across the Commonwealth for the purpose of studying the following:

(a) Immediate and long-range transportation needs;

(b) Immediate and long-range financing needs and solutions;

(c) Methods to ensure the equitable allocation of transportation funds throughout the Commonwealth; and

(d) The economic impact of an intermodal transportation system on the Commonwealth.

Section 6. That the task force may, upon the approval of the Legislative Research Commission, employ consultants with expertise in the development and financing of an intermodal transportation system.

Section 7. That the Director of the Legislative Research Commission is authorized to supply the staff and resources necessary to accomplish the work of the Task Force to Study Transportation Needs.

Section 8. That any funds unexpended by the Highway Needs Task Force shall not lapse but shall be used to conduct the work of the Task Force to Study Transportation Needs.

HCR 64, A CONCURRENT RESOLUTION establishing a Rapid Rail Transportation Planning Commission.

WHEREAS, the urban areas of Louisville, Lexington, and Northern Kentucky are the largest population centers in the Commonwealth; and

WHEREAS, the population concentration within these urban areas has strained limited state facilities and resources, with this strain having been particularly evident in its impact on the existing transportation systems in the area; and

WHEREAS, the increased traffic congestion and accompanying air pollution from motor vehicle exhaust necessitate that alternative modes of transportation be developed within and between the state's largest population centers; and

WHEREAS, a promising solution to these transportation problems is the development of a rapid rail transportation system that initially links the urban areas of Louisville, Lexington, and Northern Kentucky, and will ultimately link the state's rural population centers to the larger urban areas; and

WHEREAS ON November 27, 1991, the United States Congress approved House Resolution 2950, the $151 billion, six-year highway and transit reauthorization bill; and

WHEREAS, under this new act, Kentucky's share of federal highway and transit funds will average $280 million annually; and

WHEREAS, House Resolution 2950 will increase funding for mass transit to $31.5 billion over six years and lower the state ratio of federal/state matching dollars required to 80/20; and

WHEREAS, an additional $9.2 billion is provided in House Resolution 2950 for transit new starts and rail modernization projects; and

WHEREAS, in light of Kentucky's need to develop alternative modes of transportation and the federal government's commitment to mass transit concerns, the state has the perfect opportunity to maximize federal dollars and address local needs;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky, the Senate concurring therein:

Section 1. A Rapid Rail Transportation Planning Commission is hereby created for the purpose of studying long-range planning for mass transit needs within the following counties: Jefferson, Shelby, Franklin, Woodford, Fayette, Scott, Grant, Boone, Kenton, and Campbell.

Section 2. The Legislative Research Commission shall appoint seventeen (17) members to the Rapid Rail Transportation Planning Commission as follows:

(f) One (1) mayor from a city of the second class that is located in a county that is not listed in Section 1; and

(g) Three (3) transportation experts.

Section 3. The Legislative Research Commission shall appoint two (2) co-chairmen of the Rapid Rail Transportation Planning Commission from among the state legislators serving on the planning commission. Members of the planning commission shall receive their reasonable and necessary expenses.

Section 4. The Rapid Rail Transportation Planning Commission shall study the feasibility of developing a rapid, fixed guideway ground transportation system. The study shall include the following elements:

(a) Existing and new transportation technologies;

(b) Economic and financial analyses;

(c) Ridership demand analyses;

(d) Examination of existing rail corridors;

(e) Priority of corridor development;

(f) Administrative structure, i.e., publicly owned and operated, privately owned and operated, or a public-private partnership;

(g) Environmental impact analysis including strategies for reducing hydrocarbons, carbon monoxide, nitrogen oxides, and noise levels, as well as strategies for energy savings from reduced gasoline consumption;

(h) Implementation schedules for the urban areas of Louisville, Lexington, and Northern Kentucky, and long-range connections to rural population centers; and

(i) Coordination with surrounding states also working to develop rapid rail systems.

Section 5. The Rapid Rail Transportation Planning Commission shall meet during the 1992-93 interim and report is findings and make recommendations to the Legislative Research Commission no later than October 31, 1993.

Section 6. The Director of the Legislative Research Commission is authorized to provide the staff for the Rapid Rail Transportation Planning Commission. Staff services to be utilized in completing this study are estimated to cost $38,500 per year for research staff and $20,250 per year for secretarial staff. These staff services shall be provided from the regular Commission budget and are subject to the limitations and other research responsibilities of the Commission.

Section 7. The Rapid Rail Transportation Planning Commission may, upon approval of the Legislative Research Commission, employ consultants to assist with conducting long-range planning for mass transit needs.

HB 192, AN ACT relating to maternal health.

WHEREAS, The General Assembly finds that a woman's ability to bear healthy children is threatened by the consequences of alcoholism and drug abuse; as many as ten percent (10%) of all births in the Commonwealth may be affected by alcohol or drug abuse; drug and alcohol use during pregnancy can result in low birthweight, physical deformities, mental retardation, learning disabilities, and other health problems in newborn infants; fetal alcohol syndrome is the leading identifiable cause of mental retardation in the nation and the only one that is totally preventable; drug and alcohol impaired individuals pose extraordinary societal costs in terms of the medical, educational, and support services needed throughout the individual's lifetime; education and treatment are essential strategies in preventing prenatal exposure to alcohol and other drugs; pregnant substance abusing women face more barriers to substance abuse treatment than other persons seeking treatment; adequate prenatal care is an essential element in delivering a healthy, well-developed newborn; punitive actions taken against pregnant alcohol or substance abusers would create additional problems, including discouraging these individuals from seeking the essential prenatal care and substance abuse treatment necessary to deliver a healthy newborn; and

WHEREAS, the General Assembly finds it is necessary to treat the problem of alcohol and drug use during pregnancy solely as a public health problem by seeking expanded access to prenatal care and to alcohol and substance abuse education and treatment programs;

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 243 IS CREATED TO READ AS FOLLOWS:

(1) All licensed retail vendors of alcoholic beverages shall post in a prominent place easily seen by patrons a printed sign at least eleven (11) inches by fourteen (14) inches in size, with letters at least one (1) inch high, supplied by the Alcoholic Beverage Control Commission, and with language supplied by the Cabinet for Human Resources, which shall warn that drinking alcoholic beverages during pregnancy can cause birth defects.

(1) Every physician and every other person legally permitted to engage in attendance upon a pregnant woman in this state shall take or cause to be taken from the woman a specimen of blood[~~,~~] for serological test for syphilis as soon as he is engaged to attend the woman and has reasonable grounds for suspecting that pregnancy exists. If the woman is in labor at the time the diagnosis of pregnancy is made, which may make it inadvisable to obtain a blood specimen ***at that time*** [~~then~~], the specimen shall be obtained within ten (10) days after delivery. The specimen of blood shall be submitted to the laboratory of the Cabinet for Human Resources or a laboratory approved by the cabinet, for the purpose of having made a serological test for syphilis. The test shall be of a type approved by the Cabinet for Human Resources.

(2) The Cabinet for Human Resources shall, as often as necessary, publish a list of the five (5) most frequently abused substances, including alcohol, by pregnant women in the Commonwealth. Any physician and any other person legally permitted to engage in attendance upon a pregnant woman in this state may perform a screening for alcohol or substance dependency or abuse, including a comprehensive history of such behavior. Any physician may administer a toxicology test to a pregnant woman under the physician's care within eight (8) hours after delivery to determine whether there is evidence that she has ingested alcohol, a controlled substance, or a substance identified on the list provided by the cabinet, or if the woman has obstetrical complications that are a medical indication of possible use of any such substance for a non-medical purpose.

(3) Any physician or person legally permitted to engage in attendance upon a pregnant woman may administer to each newborn infant born under that person's care a toxicology test to determine whether there is evidence of prenatal exposure to alcohol, a controlled substance, or a substance identified on the list provided by the Cabinet for Human Resources, if the attending person has reason to believe based on a medical assessment of the mother or the infant, that the mother used any such substance for a non-medical purpose during the pregnancy.

(4) The circumstances surrounding any positive toxicology finding shall be evaluated by the attending person to determine if abuse or neglect of the infant, as defined under KRS 600.020(1), has occurred and whether investigation by the Cabinet for Human Resources is necessary.

(5) No prenatal screening for alcohol or other substance abuse or positive toxicology finding shall be used as prosecutorial evidence.

SECTION 4. A NEW SECTION OF KRS CHAPTER 214 IS CREATED TO READ AS FOLLOWS:

(1) The Cabinet for Human Resources may conduct periodic anonymous surveys to determine the prevalence within the Commonwealth of drug and alcohol use during pregnancy. These periodic surveys may include, but are not limited to, toxicology tests to determine the presence of alcohol, controlled substances, or other drugs which have not been prescribed due to medical necessity.

(2) All hospitals and any other health facilities licensed pursuant to KRS Chapter 216B which provide for obstetrical services, including delivery of newborn infants, shall, as a condition of licensure, participate in any periodic surveys conducted by the Cabinet for Human Resources for the purposes of determining the prevalence of alcohol or other substance abuse among pregnant women and newborn infants.

(3) Any surveys conducted pursuant to this section shall be conducted according to guidelines established by the Cabinet for Human Resources.

(4) The results of any individual toxicology tests performed pursuant to this section shall remain confidential and shall only be released to the Cabinet for Human Resources. Any results shall be collected and compiled in aggregate form without the name of the hospital, patient, or other means of identifying the individual subject of the test.

(5) No test result obtained pursuant to this section shall be admissible in any court or other hearing as evidence in any proceeding, criminal or civil, against the individual subject of the test.

SECTION 6. A NEW SECTION OF KRS CHAPTER 222 IS CREATED TO READ AS FOLLOWS:

The Committee Substitute to **HB 192** is as follows:

HB 192, AN ACT relating to maternal health.

WHEREAS, The General Assembly finds that a woman's ability to bear healthy children is threatened by the consequences of alcoholism and drug abuse; as many as ten percent (10%) of all births in the Commonwealth may be affected by alcohol or drug abuse; drug and alcohol use during pregnancy can result in low birthweight, physical deformities, mental retardation, learning disabilities, and other health problems in newborn infants; fetal alcohol syndrome is the leading identifiable cause of mental retardation in the nation and the only one that is totally preventable; drug and alcohol impaired individuals pose extraordinary societal costs in terms of the medical, educational, and support services needed throughout the individual's lifetime; education and treatment are essential strategies in preventing prenatal exposure to alcohol and other drugs; pregnant substance abusing women face more barriers to substance abuse treatment than other persons seeking treatment; adequate prenatal care is an essential element in delivering a healthy, well-developed newborn; punitive actions taken against pregnant alcohol or substance abusers would create additional problems, including discouraging these individuals from seeking the essential prenatal care and substance abuse treatment necessary to deliver a healthy newborn; and

WHEREAS, the General Assembly finds it is necessary to treat the problem of alcohol and drug use during pregnancy solely as a public health problem by seeking expanded access to prenatal care and to alcohol and substance abuse education and treatment programs;

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 243 IS CREATED TO READ AS FOLLOWS:

The specimen of blood shall be submitted to the laboratory of the Cabinet for Human Resources or a laboratory approved by the cabinet, for the purpose of having made a serological test for syphilis. The test shall be of a type approved by the Cabinet for Human Resources.

(2) The Cabinet for Human Resources shall, as often as necessary, publish a list of the five (5) most frequently abused substances, including alcohol, by pregnant women in the Commonwealth. Any physician and any other person legally permitted to engage in attendance upon a pregnant woman in this state may perform a screening for alcohol or substance dependency or abuse, including a comprehensive history of such behavior. Any physician may administer a toxicology test to a pregnant woman under the physician's care within eight (8) hours after delivery to determine whether there is evidence that she has ingested alcohol,

(3) Any physician or person legally permitted to engage in attendance upon a pregnant woman may administer to each newborn infant born under that person's care a toxicology test to determine whether there is evidence of prenatal exposure to alcohol, a controlled substance, or a substance identified on the list provided by the Cabinet for Human Resources, if the attending person has reason to believe based on a medical assessment of the mother or the infant, that the mother used any such substance for a non-medical purpose during the pregnancy.

(4) The circumstances surrounding any positive toxicology finding shall be evaluated by the attending person to determine if abuse or neglect of the infant, as defined under KRS 600.020(1), has occurred and whether investigation by the Cabinet for Human Resources is necessary.

(5) No prenatal screening for alcohol or other substance abuse or positive toxicology finding shall be used as prosecutorial evidence.

(6) No person shall conduct or cause to be conducted any toxicological test pursuant to this section on any pregnant woman without first informing the pregnant woman of the purpose of the test.

SECTION 4. A NEW SECTION OF KRS CHAPTER 214 IS CREATED TO READ AS FOLLOWS:

These periodic surveys may include, but are not limited to, toxicology tests to determine the presence of alcohol, controlled substances, or other drugs which have not been prescribed due to medical necessity.

(2) All hospitals and any other health facilities licensed pursuant to KRS Chapter 216B which provide for obstetrical services, including delivery of newborn infants, shall, as a condition of licensure, participate in any periodic surveys conducted by the Cabinet for Human Resources for the purposes of determining the prevalence of alcohol or other substance abuse among pregnant women and newborn infants.

(3) Any surveys conducted pursuant to this section shall be conducted according to guidelines established by the Cabinet for Human Resources. The toxicology test may be performed without a physician's order and without patient or parental consent. For the purpose of this section any toxicology test performed shall be considered medically necessary.

(4) The results of any individual toxicology tests performed pursuant to this section shall remain confidential and shall only be released to the Cabinet for Human Resources. Any results shall be collected and compiled in aggregate form without the name of the hospital, patient, or other means of identifying the individual subject of the test.

(5) No test result obtained pursuant to this section shall be admissible in any court or other hearing as evidence in any proceeding, criminal or civil, against the individual subject of the test.

SECTION 5. A NEW SECTION OF KRS CHAPTER 222 IS CREATED TO READ AS FOLLOWS:

HB 372, AN ACT relating to the establishment of a birth defects registry.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 211 IS CREATED TO READ AS FOLLOWS:

As used in this Act, unless the context otherwise requires:

(1) "Cabinet" shall mean the Cabinet for Human Resources;

(3) "Department" shall mean the Department for Health Services;

(4) "Designee" shall mean a local health department, mental health/mental retardation board, or other governmental or private agency designated by the Department for Health Services.

SECTION 2. A NEW SECTION OF KRS CHAPTER 211 IS CREATED TO READ AS FOLLOWS:

The General Assembly hereby finds and declares that birth defects, stillbirths, and handicapping conditions represent problems of significant health importance about which too little is known; that conditions of this nature lead to severe mental anguish on the part of parents and frequently to high medical care costs; and that a system to obtain more information about these conditions could result in development and implementation of preventive measures to decrease their incidence and prevalence in the future. Therefore, it is the intent of the General Assembly to:

(1) Provide information on the incidence, prevalence, and trends of birth defects, stillbirths, and handicapping conditions;

(2) Provide information as to the possible causes of birth defects, stillbirths, and handicapping conditions; and

(3) Develop prevention strategies to reduce the incidence of birth defects, stillbirths, and handicapping conditions and to reduce secondary complications associated with handicapping conditions.

SECTION 3. A NEW SECTION OF KRS CHAPTER 211 IS CREATED TO READ AS FOLLOWS:

(1) The Department for Health Services shall establish and maintain a birth defects registry that will provide a system for the collection of information concerning birth defects, stillbirths, and handicapping conditions. The system may cover all or part of the Commonwealth.

(2) In establishing the system, the department may review vital statistics records.

(3) The department may require general acute care hospitals licensed under the provisions of KRS Chapter 216B to maintain a list of the following information:

(a) All women discharged with a diagnosis of stillbirth; and

(b) All patients up to the age of five (5) years diagnosed with a birth defect or handicapping condition as defined by the department upon the recommendation of the appointed advisory committee.

(4) The department may have access to the medical records of any patient meeting the criteria in subsection (3) of this section that are maintained by general acute care hospitals and free standing birthing centers licensed under the provisions of KRS Chapter 216B.

(5) The Department for Health Services may implement the provisions of this Act through the promulgation of administrative regulations in accordance with the provisions of KRS Chapter 13A.

SECTION 4. A NEW SECTION OF KRS CHAPTER 211 IS CREATED TO READ AS FOLLOWS:

(1) The secretary shall appoint a committee to advise on the implementation of the birth defects registry. The advisory committee shall have representation from the disciplines of obstetrics and gynecology, pediatrics, genetics, epidemiology, biostatistics, hospital administration, state agency service providers, parents of

children with birth defects or handicapping conditions, and consumers. Other disciplines may be represented at the discretion of the secretary.

(2) The advisory committee shall recommend to the department a definition of birth defects and handicapping conditions to be reported to the registry.

(3) If the department determines it is necessary to collect information from sources other than vital statistics records, general acute care hospitals, and free standing birthing centers, the department shall consult with the advisory committee prior to requesting the information.

SECTION 5. A NEW SECTION OF KRS CHAPTER 211 IS CREATED TO READ AS FOLLOWS:

(1) All information collected and analyzed pursuant to Sections 3 and 4 of this Act shall be held confidential as to the identity of the individual patient. Staff of the cabinet, the department, or its designee may use the information to notify parents of available medical care and other services available for the child and family. Further disclosure shall be made only pursuant to the written consent of the child's parent or legal guardian.

(2) Access to information assembled by the birth defects registry shall be limited to the cabinet, the department, or its designee and to qualified persons or organizations engaged in demographic, epidemiological or other similar studies related to health and health care provision. A written agreement to maintain confidentiality shall be required if access is approved for persons other than representatives of the cabinet.

(3) The department shall maintain a record of all persons given access to the information in the birth defects registry. The record shall include: the name of the person authorizing access; name, title, and organizational affiliation of person given access; dates of access; and the specific purpose for which information is to be used. This record of access shall be open to public inspection during normal operating hours of the department.

(4) Information assembled by the birth defects registry may be disclosed in summary, statistical, or other form which does not identify particular individuals or individual sources of information.

(5) Any person who, in violation of a written agreement to maintain confidentiality, discloses any information provided under Sections 3 and 4 of this Act may be denied further access to confidential information maintained by the department.

SECTION 6. A NEW SECTION OF KRS CHAPTER 211 IS CREATED TO READ AS FOLLOWS:

(1) Any person who intentionally violates any of the provisions of Section 5 of this Act shall be guilty of a Class A misdemeanor.

(2) The penalty provided for in Subsection (1) of this section shall not be construed as restricting any remedy, provisional or otherwise, provided by law for the benefit of the Department for Health Services.

HB 149, AN ACT relating to higher education and declaring an emergency.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 164 IS CREATED TO READ AS FOLLOWS:

As used in this chapter, unless the context requires otherwise:

"Relative" means a person's father, mother, brother, sister, husband, wife, son, daughter, aunt, uncle, son-in-law, or daughter-in-law.

Section 2. KRS 164.020 is amended to read as follows:

The Council on Higher Education in Kentucky shall:

(1) Engage in analyses and research to determine the overall needs of higher education in the Commonwealth.

(2) Develop and transmit to the Governor comprehensive plans for public higher education which meet the needs of the Commonwealth. The plans so developed shall conform to the respective functions and duties of the state universities, the community colleges, and the University of Kentucky, as provided by statute. The council shall for all purposes of federal legislation relating to planning be considered the "single state agency" as that term may be used in federal legislation. When federal legislation requires additional representation on any "single state agency," the Council on Higher Education shall establish [~~such~~] advisory groups [~~as may be~~] necessary to satisfy federal legislative or regulatory guidelines.

(3) Determine tuition and approve the minimum qualifications for admission to the public institutions of higher education. In determining the tuition for non-Kentucky residents, the council shall consider the fees required of Kentucky students by institutions in adjoining states, the resident fees charged by other states, the total actual per student cost of training in the institutions for which the fees are being determined, and the ratios of Kentucky students to non-Kentucky students comprising the enrollments of the respective institutions, and [~~such~~] other factors [~~as~~] the council may in its sole discretion deem pertinent.

(4) Consider the requirements and review the budget requests, which shall be prepared in the manner and submitted by the institutions to the council by dates prescribed by the council, of the institutions of public higher education as to their appropriate level of support considering the functions of the institutions and their respective needs. The council, in cooperation with the university presidents, shall devise, establish, and periodically review and revise formulas for use in making recommendations to provide to the Governor and the legislature for use in making appropriations for the institutions of higher learning. The formulas shall provide for adequate and equitable allocation of funds among the several universities considering their respective needs and statutory, institutional, and geographic missions. In the development, revision, and refinement of [~~such~~] formulas, committees composed of members of the council staff and a representative of each of the state universities shall conduct hearings on each campus in a manner to give all principal segments of each institution the opportunity to participate in the development of the formulas. The studies shall include, but not be limited to:

(a) A review of formulas used by other states to calculate needs and appropriate funds for institutions of higher education;

(b) A complete review of selected comparable institutions with reference to both the state appropriations and tuition charges, and

(c) A review of institutional activities and programs that can be calculated for use in the development of the formulas.

There shall be included in the final report the institutional responses to the studies and their recommendations and the recommendations of the advisory conference of presidents. Nothing in this chapter shall prevent or prohibit the Governor, the Legislature, the Council on Higher Education, or the governing board of any institution of higher education from requesting or recommending deviations from any applicable formula or formulas prescribed by the Council on Higher Education and advancing reasons and arguments in support of them. The individual institutions' budget requests, including tuition and registration fee schedules for all categories of students, along with council recommendations shall be submitted to the Governor through the Finance and Administration Cabinet not later than November 15 of each odd-numbered year. The council shall submit a separate budgetary recommendation for the University of Kentucky community college system.

(5) Review and approve all capital construction projects the cost of which exceeds two hundred thousand dollars ($200,000) approved by the governing boards of the state-supported institutions of higher education prior to the institutions' submission of ***the*** [~~such~~] projects to the Finance and Administration Cabinet ***or the*** [~~and/or~~] State Property and Buildings Commission.

(6) Require reports from the executive officer of each institution it deems necessary for the effectual performance of its duties.

(7) Publish annually a report of the educational and financial affairs of the institutions and disseminate other information relating to higher education.

(8) Define and approve the offering of all higher education associate, baccalaureate, graduate, and professional degree or certificate programs in the state-supported higher education institutions; review proposals and make recommendations to the Governor regarding the establishment of new state-supported community colleges and new four-year colleges. Provided, nothing in this section, ***Section 7 of this Act*** [~~KRS 164.010~~], 164.125, and 164.290 to 164.295 shall be construed to grant the Council on Higher Education authority to disestablish or eliminate any college of law which became a part of the state system of higher education through merger with a state college.

(9) Approve the teacher education programs in the public institutions.

(10) Elect a ***chairperson*** [~~chairman~~] annually from the voting membership and appoint an executive director and [~~such~~] staff [~~as may be~~] needed and fix their compensation without limitation of the provisions of KRS Chapter 18A and KRS 64.640, subject to the approval of the commissioner of personnel and the secretary of the Finance and Administration Cabinet. ***No relative of a Council on Higher Education member shall be employed by the agency.***

(11) Constitute the representative agency of the Commonwealth in all matters of higher education of a general and statewide nature which are not otherwise delegated to one (1) or more institutions of higher learning. ***The*** [~~Such~~] responsibility may be exercised through appropriate contractual relationships with individuals or agencies located within or without the Commonwealth. The authority includes, but is not limited to, contractual arrangements for programs of research, specialized training, and cultural enrichment.

(12) Develop procedures for the approval of a designated receiver to provide for the maintenance of student records of the public institutions of higher education and the colleges as defined in KRS 164.945, and institutions operating pursuant to KRS 165A.310 which offer collegiate level courses for academic credit, which cease to operate after July 15, 1980. Procedures shall include assurances that, upon proper request, subject to federal and state laws and regulations, copies of student records shall be made available within a reasonable length of time for a minimum fee.

(13) Monitor and report on compliance with KRS 164.351. The report shall be transmitted to the director of the Legislative Research Commission for distribution to the Health and Welfare Committee.

(14) Develop in cooperation with each state institution of higher education a comprehensive orientation program to be carried out by the respective institution for newly-appointed governing board trustees and regents. The orientation program shall include, but not be limited to, the presentation of information concerning the respective institution's mission, budget, plans, policies, strengths, and weaknesses.

Representative J. Harper moved that the rules be suspended to act upon a Resolution. Agreed.

Representative J. Harper moved the adoption of the following **HR 101**:

HR 101, A RESOLUTION expressing the sense of the House of Representatives that the sport of "frog jumping" should be prohibited within the Commonwealth.

WHEREAS, the insidious practice of "frog jumping" is a blight on the conscience of the Commonwealth; and

"Frog jumping" connotes a seemingly-harmless event but is in reality the barbarous manipulation and torture of innocent amphibians; and

WHEREAS, "frog jumping" is akin to the pastime of "frog gigging," which is another interaction between humans and frogs that is only appealing to one of the participants; and

WHEREAS, "frog jumping" can only be considered a "sport" in the most perverse sense of the term because the frog is neither trained nor skilled for its performance; and

WHEREAS, frogs are well known for their mystical qualities of turning into princes upon being kissed by a beautiful maiden, and to prod a prince, even in disguise, to "jump" is in extremely bad tase.

WHEREAS, the stature and esteem of the people of the Commonwealth are diminished by the continued participation in the inhumane practice of making tailless creatures hop for the presence of spectators;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. It is the sense of the Kentucky House of Representatives that the sport of "frog jumping" should be forever prohibited within the Commonwealth.

HR 101 was adopted by voice vote.

Representative Sheehan moved that the rules be suspended to act upon a Resolution. Agreed.

WHEREAS, the Association will celebrate its anniversary with a "brotherhood brunch" from 11 a.m. to 12:30 p.m., Saturday, February 15, 1992, at the Randolph-Jackson Hall, 121 Lynn Street, Covington;

NOW, THEREFORE,

SECTION 1. A NEW SECTION OF SUBTITLE 18 OF KRS CHAPTER 304 IS CREATED TO READ AS FOLLOWS:

(1) Notwithstanding any provision of KRS Chapter 304 nor any choice of law provision in any insurance contract, if a group or blanket health insurance policy that insures a resident of Kentucky is delivered or issued for delivery outside the Commonwealth of Kentucky, the provisions of KRS Chapter 304 shall control the insurance policy if Kentucky, rather than the state in which the policy was delivered or issued for delivery, has the greater interest in and the most significant relationship to the insurance transaction and the parties.

(2) For purposes of this section, whenever a group or blanket health insurance policy provides coverage for a resident of Kentucky who files a claim which arose from an accident or illness in Kentucky, Kentucky shall be deemed to have the greater interest in and the most significant relationship to the insurance transaction and the parties.

The Committee Substitute to **HB 97** is as follows:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF SUBTITLE 18 OF KRS CHAPTER 304 IS CREATED TO READ AS FOLLOWS:

(2) For purposes of subsection (1) of this section, a group or blanket health insurance policy shall be deemed to affect the rights of a Kentucky insured and bear a reasonable relationship to Kentucky when, but not limited to, the policy provides coverage for a resident of Kentucky who files a claim which arose from an accident that occurred in Kentucky or a medical condition for which the insured received or is receiving treatment in Kentucky.

HB 466, AN ACT relating to liability of lender-owners and subsequent purchasers for contamination or pollution of property.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF SUBTITLE 1 OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) As used in this section, unless the context requires otherwise:

(a) "Beneficiary" means any beneficiary, heir, ward, or other represented person or any other party interested in the estate, trust, or other property managed by a representative.

(b) "Cleaning up" or "clean up" means remedying or minimizing contamination or pollution.

(c) "Contaminate or pollute," "contaminating or polluting," or "contamination or pollution" means the presence in the environment of any substance in sufficient quantity and of such characteristic and duration as is or threatens to be injurious to human, plant, or animal life or property, or which unreasonably interferes with the comfortable enjoyment of life or property. These terms include, but are not limited to, contamination or pollution from air contaminants, asbestos, biological materials, chemicals, discarded or abandoned substances, fertilizers, garbage, hazardous substances, herbicides, organic chemicals, pesticides, plant growth regulators, radioactive materials, refuse, sewage, trash, wastes, hazardous wastes, solid wastes, and special wastes.

(d) "Government liability" means any clean up obligation imposed by any state or local law, regulation, ordinance, permit or order, or any clean up obligation regulated by any state or local governmental agency.

(e) "Lender-owner" means any person which had a security interest in or mortgage or lien upon any real or personal property, forecloses on or receives an assignment or deed in lieu of foreclosure or otherwise becomes the owner of the real or personal property in order to realize on the obligation secured, and did not become the owner primarily for the purpose of avoiding any third party liability or government liability. The term also means any person who merges or otherwise combines operations with a lender-owner, if the merger or other combination was not primarily for the purpose of avoiding any third party liability. Knowingly obtaining a security interest in, or mortgage or lien upon, any real or personal property which is contaminated or polluted shall not be, in and of itself, sufficient to demonstrate that a person became the owner primarily for the purpose of avoiding any third party liability.

(f) "Lender-owner property" means real or personal property acquired by a person in a manner that the person is a lender-owner with respect to the property.

(g) "Person" means an individual, corporation, partnership, joint venture, association, or other entity, or any director, officer, employee or agent of any of the foregoing.

(h) "Regulated financial institution" means a bank, credit union, mortgage company, savings association, savings bank, thrift, trust company, or other financial institution the operations of which are substantially supervised by a state or by the federal government.

(i) "Representative" means any person or entity acting in the capacity of a receiver, conservator, guardian ad litem, personal representative of a deceased person, trustee, or fiduciary. The terms "trustee" and "fiduciary" shall be limited to entities acting as trustees or fiduciary and which are regulated financial institutions.

(j) "Subsequent purchaser" means any person who acquires lender-owner property from a lender-owner or other subsequent purchaser.

(k) "Third party" means any person, corporation, partnership, association, or other entity, except that the term does not include any governmental entity seeking to enforce valid federal, state or local environmental statutes, regulations, ordinances, permits or orders.

(l) "Third party liability" means liability to a third party for any claims arising out of or resulting from contamination or pollution, including their limitation, claims for property damage, personal injury, consequential damages, lost profits, and exemplary damages.

(m) A thing is done "in good faith" when it is in fact done honestly, whether it be done negligently or not.

(n) A person acts "knowingly" with respect to conduct or to a circumstance when he is aware that his conduct is of that nature or that the circumstance exists.

(o) A person acts "recklessly" with respect to a result or to a circumstance when he fails to perceive a substantial and unjustifiable risk that the result will occur or that the circumstance exists. The risk must be of such nature and degree that failure to perceive it constitutes a gross deviation from the standard of care that a reasonable person would observe in the situation.

(2) Notwithstanding any other provision of law, no lender-owner or subsequent purchaser shall incur any third-party liability or government liability because of contamination or pollution emanating from or existing on real or personal property either prior to or after the date that title vests in the lender-owner or subsequent purchaser so long as the lender-owner or subsequent purchaser does not knowingly or recklessly cause the contamination or pollution.

(3) For purposes of this section, a lender-owner or subsequent purchaser who does not knowingly or recklessly cause contamination or pollution on the lender-owner's property shall be deemed to be holding indicia of ownership primarily to protect a security interest in the lender-owner's property.

(4) (a) A representative shall have the power to take any action he in good faith deems necessary to prevent, abate, clean up, remedy, or otherwise respond to any contamination or pollution arising out of, relating to, or affecting any real or personal property held by the representative in his representative capacity. Actions may be taken prior to the initiation of enforcement actions by a federal, state, or local agency. A representative shall not be personally liable to any beneficiary for any claim, including any claim for diminution in the value of the estate or trust, based upon any action.

(b) Notwithstanding any other provision of law except as provided in paragraph (c) of this subsection, third party liability or government liability for contamination or pollution arising out of or relating to assets held or managed by a representative in its capacity as a representative may be satisfied only from the assets held by the representative in the same estate or trust which contains the assets from which the contamination or pollution arises out of or relates to.

(c) A representative may be personally responsible for third party liability or government liability or otherwise cleaning up contamination or pollution only if the representative knowingly or recklessly caused the new contamination or pollution. This paragraph shall not be interpreted as constituting an independent basis for imposing liability, but shall constitute an additional requirement before liability may be imposed upon a representative based upon any statute, regulation, or other basis for liability.

(5) This section shall not affect any liability expressly created under any federal health or environmental statutes, regulations, permits, or orders.

(6) No provision of Sections 1 and 2 of this Act shall be enforced if its enforcement would result in the withdrawal of an authorization by the federal government for this Commonwealth, or any of its administrative agencies, to carry out any program relating to contamination or pollution, including but not limited to any authorization pursuant to Section 3006, Resource Conservation and Recovery Act of 1976, as amended, in lieu of an equivalent program administered and enforced by the federal government.

(7) In any action seeking to impose any liability for contamination or pollution upon a regulated financial institution that claims to be a lender-owner, the person seeking to impose liability shall bear the burden of proving that the regulated financial institution did not become the owner primarily for the purpose of avoiding any third party liability.

(8) This section shall apply to actions commenced on or after the effective date of this section.

Section 2. KRS 224.99-020 is amended to read as follows:

(1) The penalties set forth in KRS 224.99-010 may be recoverable in an action brought in the name of the Commonwealth of Kentucky by cabinet counsel. In any such action any finding of the cabinet shall be prima facie evidence of the fact or facts found therein.

(2) It shall be the duty of the Attorney General, upon the request of the cabinet, to appoint cabinet counsel as a special Attorney General in order to institute an action for the recovery of the penalties herein provided for, and to bring an action for an injunction against any person violating or threatening to violate any provision of this chapter or violating or threatening to violate any order or determination of the cabinet promulgated pursuant thereto. In any such action any findings of the cabinet shall be prima facie evidence of the fact or facts found therein.

(3) ***Except as provided in Section 1 of this Act,*** nothing contained in this chapter shall abridge the right of any person to recover actual compensatory damages resulting from any violation of this chapter.

The Committee on Business Organizations and Professions reported **HB 330**, with Committee Substitute attached thereto, **HB 340, HB 494, HJR 55** and **SB 71** with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

SECTION 1. A NEW SECTION OF KRS CHAPTER 251 IS CREATED TO READ AS FOLLOWS:

(1) A forward pricing, or delayed pricing, contract means an executory contract which shall be in a form and contain terms the department shall adopt by administrative regulation pursuant to KRS 251.480. The forward pricing contract shall be executed by the licensed grain establishment and the producer, or by their authorized representatives, not later than thirty (30) days after the first delivery of grain is received under the forward pricing contract. The licensed grain establishment shall maintain a file of executed forward pricing contracts that are available for inspection at any reasonable time by the department. The licensed grain establishment shall keep records and ledgers which the department deems necessary to document the licensed grain establishment's obligations to the producer under a forward pricing contract. The licensee shall provide reports, forms, and other evidence the department shall adopt by administrative regulation to document the storage and marketing of grain under the forward pricing contract.

(2) Except as otherwise provided in subsection (3) of this section, a licensed grain establishment which purchases grain under a forward pricing agreement shall at all times maintain the grain in storage, rights in the grain, proceeds from the sale of grain, or a combination of the grain, rights, and proceeds equal to eighty percent (80%) of the value of the licensed grain storage establishment's unpaid obligations for all grain that it has purchased and for which delivery has been made under a forward pricing contract. The obligation shall be secured or represented by one (1) or more of the following:

(a) Maintenance of the grain in storage in the licensed grain establishment's warehouse or storage facilities;

(b) Rights in grain as evidenced by a receipt or ticket for storage of the grain under a bailment agreement in another warehouse approved by the department; or

(c) Proceeds from the sale of grain as evidenced or represented by one (1) or more of the following:

(3) The licensed grain establishment handler account required by subsection (2) of this section shall be deemed grain or the proceeds for grain arising from unpaid obligations for all grain purchased and for which delivery has been made under a forward pricing contract. The Commissioner shall have a priority lien upon the property or assets required to be maintained in the licensed grain establishment's grain handler account as provided in subsection (2) of this section. The Commissioner shall, when he questions a licensed grain establishment's ability to pay producers for grain purchased, or when he determines that the licensed establishment does not have sufficient net worth to satisfy indebtedness, after giving notice to the owner or agent of the owner, prohibit the transfer or disbursement of any grain, property, or assets maintained in the licensed grain establishment handler account, except for the satisfaction of unpaid obligations for grain that has been purchased and for which delivery has been made under a forward pricing contract. Disbursements shall be made under the direction of the Commissioner to grain producers on a pro rata basis. An action to enforce the priority lien created by this subsection may be brought in the name of the Commissioner or the Kentucky Grain Insurance Corporation in the Franklin Circuit Court.

The licensed grain establishment shall not be required to maintain rights in the grain, proceeds from the sale of grain, or a combination of the grain, rights, and proceeds equal to eighty percent (80%) of the value of the licensed storage establishment's unpaid obligation relating to the amount of grain exempted from the payment of compensation from the Kentucky Grain Insurance Fund.

HB 64, AN ACT relating to urban county pension systems.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 67A.320 is amended to read as follows:

(1) Any urban-county government in which there existed a municipality which had in effect an employees' pension fund prior to its merger into the urban-county form of government shall provide by comprehensive plan or ordinance for the maintenance of the [~~said~~] pension fund for those employees covered by the [~~said~~] pension fund, and shall in each case provide for the payment to the pension fund in each month of the sum necessary to maintain ***the*** [~~such~~] fund in accordance with the actuarial principles established by the actuarial studies described ***in this section*** [~~hereafter~~], and may assess monthly ***the*** [~~such~~] amount or percent of the salary of the employees as [~~may be equitably~~] determined on a fair actuarial basis, and in any case not in excess of ***nine*** [~~eight~~] percent ***(9%)*** [~~(8%)~~] of the monthly salary of each employee unless a higher rate was charged prior to the merger of governments, in which case the higher rate may be charged, the assessment to be deducted from the employees' salaries or picked up pursuant to subsection (2) of this section and paid in cash into the pension fund. Within six (6) months after the effective date of the urban-county form of government, or within six (6) months after June 21, 1974, whichever shall be later, the trustees of the board shall, at the expense of the pension fund, provide for the performance of an actuarial study, which [~~study~~] shall be completed within six (6) months thereafter, and [~~which study~~] shall describe the amounts necessary to be contributed by the urban-county government or other sources to fund on an actuarially sound basis the benefits promised or described in the [~~said~~] fund, including any payments required to bring ***the*** [~~said~~] fund to an actuarially sound position ***if*** [~~in the event that~~] it was not so at the time of the performance of the study.[~~, in which latter event~~] The legislative body shall [~~also~~] determine a reasonable period over which [~~such~~] additional funding***, if any,*** shall be made, which period shall not exceed thirty (30) years. A similar study shall be arranged by the board at the cost of the urban-county government at least once in every three-year period thereafter. ***If the*** [~~In the event that~~] fund created by this section is extended to cover employees not described in the first sentence ***of this section*** [~~hereof~~], the actuarial study shall determine the required payments ***necessary*** [~~so as~~] to keep the expanded fund on an actuarially sound basis, and the urban-county government shall maintain ***the*** [~~such~~] fund [~~as set out herein~~], and shall assess against the additional covered employees the same monthly contribution as [~~is~~] required for other government employees.

(2) The urban-county government shall, solely for the purpose of compliance with Section 414(h) of the United States Internal Revenue Code, pick up the employee contributions required by this section for all compensation earned after August 1, 1982, and the contributions [~~so~~] picked up shall be treated as employer contributions in determining tax treatment under the United States Internal Revenue Code and KRS 141.010(10). However, the urban-county government shall continue to withhold federal and state incom taxes based upon these contributions and hold them in a separate account until the Internal Revenue Service or the federal courts rule that, pursuant to Section 414(h) of the United States Internal Revenue Code, these contributions shall not be included as gross income of the employee until such time as the contributions are distributed or made available to the employee. The picked-up employee contribution shall satisfy all obligations to the retirement fund satisfied prior to August 1, 1982, by the employee contribution, and the picked-up employee contribution shall be in lieu of an employee contribution. The urban-county government shall pay these picked-up employee contributions from the same source of funds which is used to pay earnings to the employee. The employee shall have no option to receive the contributed amounts directly instead of having them paid by the urban-county government to the fund. Employee contributions picked up after August 1, 1982, shall be treated for all purposes of this section in the same manner and to the same extent as employee contributions made prior to August 1, 1982.

(3) The pick up of employee contributions by the employer shall not be construed to reduce the final salary or the average salary upon which the employee retirement benefit is based.

(4) There is hereby created a board for the existing employees' pension fund and trustees of that board. Trustees from the pension fund board shall consist of the mayor, four (4) members of the legislative body of the urban-county government selected by the legislative body, the secretary of the Finance and Administration Cabinet, the director of the Division of Personnel, and three (3) civil service employees to be elected to the board by those employees covered by the employees' pension fund. In the event that there is no position in the urban-county government denominated secretary of the Finance and Administration Cabinet and/or director of the Division of Personnel, the appointed office of the urban-county government exercising the functions most closely resembling such office shall serve as trustee.

(5) Temporary employees appointed without examination shall not be compelled to contribute to any pension fund and shall not be eligible to benefits.

(6) In no year shall the contribution by the urban-county government to the pension fund, in the manner provided in this section, be less than the total amount assessed upon and deducted from the salary of the employees.

(7) The trustees of the pension fund shall, at least once every three (3) months, report in writing to the mayor the receipts, expenditures, and financial status of the pension fund, stating the places of deposit of funds, or the character of investments made, and the mayor shall cause copies of the report to be posted in at least three (3) places where urban-county employees frequent and report.

(8) If the urban-county government issues the appropriate order allowing participation in the County Employees Retirement System alternate participation plan pursuant to KRS 78.530(3) and 78.531(2), the urban-county government shall have the right to use assets in the local pension fund, other than assets necessary to pay benefits to the remaining active members of the local pension fund and to retirees and their survivors as determined by actuarial evaluation and other than assets payable to the County Employees Retirement System pursuant to KRS 78.531(2), to assist in the payment of both the employee's and employer's costs of alternate participation pursuant to KRS 78.530(3)(d).

The commission may grant more than eight hundred dollars ($800) for a dry dydrant when topographic, soil, and water supply conditions justify the increased cost.

SECTION 3. A NEW SECTION OF KRS CHAPTER 146 IS CREATED TO READ AS FOLLOWS:

(1) In order to administer the dry hydrant cost sharing program authorized by KRS 146.110, the director of the Division of Soil and Water Conservation, in consultation with the state conservationist of the USDA Soil Conservation Service, shall assign each county to one (1) of six (6) areas. Each area shall be administered by a resource conservation and development representative, and each representative shall be responsible for twenty (20) counties.

(2) The resource conservation and development representative shall consult with the board of supervisors and the district conservationist of each soil conservation district in each county for which he is responsible, to develop a plan for installing dry hydrants in that county. The plan for each county shall be submitted to the fiscal court of that county to obtain the court's commitment to contribute labor and equipment for the installation of dry hydrants, and to supply funds for materials on a reimbursable basis.

(3) When the fiscal court commits the county to contribute labor and equipment, and to contribute funds for materials on a reimbursable basis, the resource conservation and development representative shall submit the county plan to the state association of resource conservation and development agencies for review. The state association shall determine which dry hydrants to fund and the dollar amount to be allocated for each dry hydrant. The state association shall then submit its recommendations to the director of the Division of Soil and Water Conservation.

(4) The director of the Division of Soil and Water Conservation shall review the recommendations of the state association. If the director approves, he shall notify the state association and the county that the commission will reimburse the county for approved material costs when the installation of the dry hydrant is complete. If the director does not approve a recommendation, he shall state his reasons for disapproval to the state association. Resource conservation and development representatives may work with soil conservation districts and fiscal courts to modify recommendations based on the comments of the director, and may submit amended recommendations through the state association.

(5) The director of the Division of Soil and Water Conservation shall reimburse a county for the approved cost of materials used to install a dry hydrant upon certification by the fiscal court that the installation is complete.

(6) Fifty percent (50%) of the funds distributed to the Soil and Water Conservation Commission in KRS 42.566(1)(a) shall be allocated in equal shares to each county in Kentucky for the installation of approved dry hydrants. The other fifty percent (50%) of the funds shall be apportioned among the counties for the installation of approved dry hydrants on the basis of the ratio that the county's public road mileage outside of cities, towns, and urban areas having a population of twenty-five hundred (2500) or more bears to the total mileage of such roads for the entire state. If a county does not submit a plan for dry hydrants by July 1, 1993, its share of funds to be distributed equally shall be added to the funds to be apportioned on the basis of road mileage. Funds not approved by June 30, 1994 for payment to counties shall be retained by the commission for payment to counties after that date.

Section 4. KRS 42.566 is amended to read as follows:

(1) The funds appropriated by the General Assembly shall be expended in a manner consistent with the judgments and settlements, as amended, which produced the oil overcharge refunds, as follows:

Section 6371 et seq. ***The sum of seven hundred and twenty thousand dollars ($720,000) shall be distributed during fiscal year 1992-1993, and again in fiscal year 1993-1994 to the Soil and Water Conservation Commission, Natural Resources and Environmental Protection Cabinet, for funding the installation of dry hydrants to reduce gasoline consumption devoted to water hauling by rural fire departments.*** The source of these funds shall be deemed to be the trust funds produced by the Stripper Well litigation, In Re Department of Energy Stripper Well Exemption Litigation, D.C. Kan., M.D.L. No. 378, and the Diamond Shamrock litigation, Diamond Shamrock Refining Co. v. Standard Oil of Indiana, D.C. Ind., Civil Action No. C-84-1432, and interest accumulated thereon.

(b) The balance of the trust funds appropriated for expenditure in any fiscal year shall be distributed to the Cabinet for Human Resources and allocated as follows:

1. Forty percent (40%) of the trust funds received by the cabinet in any fiscal year shall be allocated to the cabinet's program for weatherization of low-income households established pursuant to Part A of the Energy Conservation and Existing Buildings Act of 1976, 42 U.S.C. Section 6861 et seq.; and

2. Sixty percent (60%) of the trust funds received by the cabinet in any fiscal year shall be allocated to the cabinet's program for energy crisis or prevention services for low-income households established pursuant to the Low-Income Home Energy Assistance Act of 1981, 42 U.S.C. Section 8621 et seq.

(b) That the felon is classified other than minimum or medium security;

(c) That the felon is an escape risk;

(d) That the felon is dangerous to himself or others;

HB 480, AN ACT relating to water districts.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 74.175 is amended to read as follows:

(1) When the water district desires to construct a water main which shall be primarily a transmission line and secondarily a line to serve customers along the water main, the commission may recommend to the court that the assessments be on a deferred basis. If the court determines that the water main is primarily a transmission main, and secondarily benefits the property owners abutting the water main, the court may provide that the assessments shall be on a deferred basis.

(2) In the event the assessments are on a deferred basis, they shall not be immediately due and payable until the benefit to the abutting property owners is realized either by a sale of the property or when the abutting property owner desires to tap into the water main, and at that time the deferred assessment shall be paid in full without interest. ***For a deferred assessment on which the district has not initiated collection action in the courts by the effective date of this Act, limitations on an action to collect shall not begin to run until the assessment is immediately due and payable as provided for in this subsection.***

(3) In the event a property owner who has a deferred assessment against his property sells only a portion of the property or desires water service for only a portion of the property, the deferred assessment shall be prorated and paid only for the portion being sold or for the reasonable area of property being served by the water main. The property owner shall be required to furnish to the commission a plat of the property being sold or the area which will be served with water, and no other area may be served from that service unless an additional portion of the deferred assessment is paid. ***For an additional portion of a deferred assessment on which the district has not initiated collection action in the courts by the effective date of this Act, limitations on an action to collect shall not begin to run until the additional portion is immediately due and payable because of further sale of the property or further extension of water service.***

(4) All remaining provisions of the assessment statutes shall apply to deferred assessments, except as same may be inconsistent with this deferred assessment provision.

Section 2. KRS 278.023 is amended to read as follows:

(1) The provisions of this section shall apply to any construction project undertaken by a water association, commission, district, or combined water, gas or sewer district formed under KRS Chapter 74 or 273, which [~~project~~] is financed in whole or in part under the terms of an agreement between the water utility and the U.S. farmers home administration or the U.S. department of housing and urban development. Because federal financing of such projects entails prior review and oversight by the federal agency and obligates the utility to certain actions, and because conflicting requirements by the federal agency and the public service commission may place the water utility in an untenable position and delay or jeopardize such projects, it is declared to be the policy of the Commonwealth that such agreements shall be accepted by the public service commission, and that the commission shall not prohibit a water utility from fulfilling its obligations under such an agreement.

(2) No agreement between a water utility and federal agency under this section shall take effect until thirty (30) days after such agreement, together with necessary applications and documentation, is filed with the commission, unless the commission acts within a lesser time. The commission in its administrative regulations shall list the specific documents required to be filed under this subsection.

(3) The commission shall review the project and the agreement, may recommend changes to the utility and the federal agency, but shall not modify or reject any portion of the agreement on its own authority. The commission shall issue a certificate of necessity and convenience and such other orders as may be required to implement the terms of the agreement no later than thirty (30) days after filing.

(4) The commission shall not prohibit the inclusion of any cost or the use of any accounting procedure in reviewing or setting the rates of the utility if such cost or procedure is required as a condition for federal financing of a construction project under an approved agreement between the water utility and federal agency.

(5) If the federal agency approves a surcharge to the water bills of customers who receive service through an extension of water facilities under this section, which is in lieu of an assessment against the customer for the cost of the extension, then the Public Service Commission shall allow collection of the surcharge to continue for the period of years for which the surcharge was established.

Section 3. KRS 74.020 is amended to read as follows:

(1) A water district shall be administered by a board of commissioners which shall control and manage the affairs of the district. The term of each commissioner is four (4) years, except as provided in this section:

(a) If a district lies wholly within a single county, or operates as a single-county district as provided in paragraph (c) of this subsection, the board of commissioners shall be composed of either three (3) or five (5) members as the county judge/executive shall determine. Members of the board shall be residents of the district, or of any incorporated or unincorporated area served by the district in the county in which the district was originally established, who shall be appointed by the county judge/executive with the approval of the fiscal court. In the event of a merger of water districts as described in KRS 74.361, the county judge/executive may appoint up to two (2) additional commissioners with the approval of the fiscal court. Initial appointments shall be for terms of two (2), three (3) and four (4) years, as designated by the court.

(b) Except as provided in paragraph (c) of this subsection, if a district formed in a single county extends its area to include territory in an adjacent county as provided by KRS 74.115, the board of commissioners shall be appointed by the county judges/executive with the approval of the fiscal courts of the concerned counties as follows: in two (2) county districts, three (3) members from the original district and two (2) members from the extended portion of the district; for extensions into three (3) or more counties, the respective county judges/executive, with the approval of the fiscal courts, shall appoint, in addition to the existing membership of the commission, two (2) members from the original one-county district and two (2) members from the newly extended portion of the district. Orders establishing the extension shall provide for the staggering of initial terms in an equitable manner.

(c) If a single-county district administered as provided in paragraph (a) hereof shall acquire an existing water or gas distribution system serving an area which extends beyond the boundaries of the district into another county, or if a district formed in a single county extends its area to include territory in an adjacent county as provided by KRS 74.115, it may operate the distribution system so acquired, or extended, provided the area served outside the county shall be deemed to be a minor portion of the total area served by the district, and provided the fiscal court of the county containing such minor portion of the total area shall have agreed to the acquisition or to the extension of the distribution system. If less than twenty-five percent (25%) of the total assets of the distribution system are located within the county outside of the boundaries of the district, it will be conclusively presumed that said district comes within the terms of this subsection.

(2) A commissioner may be removed from office as provided by KRS 65.007.

(g) The adjutant general or his designee;

(h) The commissioner of the Department of State Police or his designee;

(i) The executive director of the Administrative Office of the Courts or his designee;

(j) One (1) representative of local governments to be appointed by the Governor; and

(k) Two (2) citizen members to be appointed by the Governor.

(4) A member of the council may not:

(a) Be an officer, employee, or paid consultant of a business entity, or of a trade association for business entities, that has a substantial interest in the communications industry;

(b) Own or control, directly or indirectly, more than a ten percent (10%) interest in a business entity that has a substantial interest in the communications or automated information industry; or

(c) Be in any manner connected with any contract or bid for furnishing any state governmental body with communications systems or a service related to the automation of information systems or the computers in which they are automated, or a related service.

(5) A member of the council shall be removed if the member violates a prohibition established by subsection (4) of this section. The validity of an action of the council shall not be affected by the fact that it was taken when a ground for removal of a member existed. If the chairman of the commission has knowledge that a potential ground for removal of a council member exists, the chairman shall notify the Governor of the potential ground for removal.

(6) The term of office of the members specified in subsections (3)(a) and (3)(c) to (3)(i) shall be the same as the term of the office by virtue of which they serve upon the council.

(9) A majority of the members shall constitute a quorum for the transaction of business. Members' designees shall have voting privileges at council meetings.

Section 5. KRS 64.480 is amended to read as follows:

(1) Effective, with respect to the offices of Governor on December 11, 1979, and Lieutenant Governor on the fifth Tuesday following the regular November election in 1975, and with respect to the other offices named in this section on the first Monday in January, 1976, the compensation of the following named officers, payable monthly out of the State Treasury, shall be the sum per annum designated for the respective offices, as follows: Governor, forty-five thousand dollars ($45,000) until December 11, 1981, then fifty thousand dollars ($50,000) until December 13, 1983, and then sixty thousand dollars ($60,000) until January 1, 1985; Lieutenant Governor, an amount sufficient, when added to any per diem received during sessions of the General Assembly while serving in the capacity of President of the Senate, to equal twenty-seven thousand nine hundred dollars ($27,900) per annum, plus any compensation received while acting in the place of the Governor; Attorney General, [~~Superintendent of Public Instruction,~~] Commissioner of Agriculture, Secretary of State, State Treasurer, Auditor of Public Accounts, and clerk of the Supreme Court of Kentucky elected in November, 1975, as clerk of the Court of Appeals, twenty-seven thousand nine hundred dollars ($27,900).

(2) In order to equate or adjust the compensation of the Lieutenant Governor, Attorney General, [~~Superintendent of Public Instruction,~~] Commissioner of Agriculture, Secretary of State, State Treasurer, Auditor of Public Accounts, and clerk of the Supreme Court of Kentucky with the purchasing power of the 1949 dollar, the Department of Local Government of Kentucky shall compute by the second Friday in February of every year, beginning in 1977, the maximum permissible compensation of the officials mentioned in this subsection based precisely upon the consumer price index formula approved in Matthews v. Allen, Kentucky, 360 S.W.2d 139 (1962). Thus the maximum permissible compensation effective for the entire year of 1977 and subsequent years will be the actual compensation to be paid said officials. The year of adjustment will be the particular full calendar year involved.

(3) It is the intention of the Legislature that the constitutionally permissible adjustment of salaries of these officials be framed around equating current salaries with the purchasing power of the dollar in 1949 when Section 246 of the Constitution of Kentucky was amended. Section 246 of the Constitution of Kentucky, as amended, established a monetary level of twelve thousand dollars ($12,000) per annum for said officials. The formula merely effects an adjustment of the constitutional monetary level in terms of the current consumer price index.

(4) In order to adjust the compensation of the Governor to reflect changes in the purchasing power of the dollar, the Department of Local Government shall compute by the second Friday in February of every year, beginning in 1985, an adjusted salary of the Governor by multiplying sixty thousand dollars ($60,000) by the increase in the consumer price index during the period from January 1, 1984, to the beginning of the then-current calendar year. The actual compensation paid to the Governor for the entire calendar year of 1985 and subsequent years shall be the adjusted salary.

Section 6. KRS 65.944 is amended to read as follows:

(1) (a) Without first notifying the state local finance officer in writing, no lease may be entered into if the lease price exceeds one hundred thousand dollars ($100,000). The notification shall contain the terms

HB 457, AN ACT relating to unemployment insurance.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 341.090 is amended to read as follows:

As used in this chapter, unless the context clearly requires otherwise:

(1) "Base period" means the first four (4) of the last five (5) completed calendar quarters immediately preceding the first day of a worker's benefit year. However, if an individual lacks sufficient base-period wages because of a job-related injury, and he has received or was eligible to receive workers' compensation, upon written application by the claimant an extended base period will be substituted for the current base period on a quarter-by-quarter basis as needed to establish a valid claim or to increase the benefit rate of a claim if:

(a) The individual did not earn wages because of a job-related injury for at least seven (7) weeks of each base period quarter to be substituted by an extended base period quarter;

(b) No later than one (1) month prior to the expiration of workers' compensation benefits, the employer or carrier shall inform, orally and in writing, all recipients of their potential eligibility for unemployment insurance, and also provide a statement verifying the individual's eligibility for workers' compensation; and

(c) A claim for unemployment insurance compensation is filed no later than the fourth week of unemployment after the end of the period of injury compensated or eligible to be compensated by workers' compensation.

(2) "Extended base period" means the four (4) quarters prior to the claimant's base period. These four (4) quarters may be substituted for base-period quarters on a quarter-for-quarter basis in order to establish a valid claim or increase the benefit rate of a valid claim regardless of whether the wages have been used to establish a prior claim, except wages ***transferred to or from another state under a*** [~~earned as a member of the armed forces or wages reportable to another state and transferred under the~~] combined wage agreement will be excluded if used in a prior claim. Benefits paid on the basis of an extended base period, which would not otherwise be payable, shall be charged to the pooled account.

(3) "Benefit year" for any worker means the fifty-two (52) week period beginning with the first day of the week with respect to which he first requests a determination which establishes his status as a fully insured worker after the termination of his last preceding benefit year, if any, except that the last preceding benefit year shall be a fifty-three (53) week period if fifty-two (52) weeks would result in the overlapping of any calendar quarter of the base period of the new benefit year with the same calendar quarter of the base period of the previous benefit year. As used in this subsection, a worker shall be considered as having insured status, without regard to any other provision of this chapter, if at the time of his request he has satisfied the conditions required under subsection (5) of KRS 341.350.

(4) "Base-period wages" means the wages paid to a worker during his base period by subject employers for covered employment. The secretary, upon request of the employee, with respect to this subsection, shall consider wages payable to mean wages paid in order to prevent inequities caused by employer failure to meet a regularly scheduled payday. Lump-sum payments deemed to be wages under this chapter shall be reallocated to periods covered by the payments.

Section 2. KRS 341.360 is amended to read as follows:

No worker may be paid benefits for any week of unemployment:

(1) With respect to which a strike or other bona fide labor dispute which caused him to leave or lose his employment is in active progress in the establishment in which he is or was employed, except that benefits may be paid unless the employer notifies the department in writing within seven (7) days after the beginning of such alleged strike or labor dispute of the alleged existence of such strike or labor dispute. For the purpose of this subsection a lockout shall not be deemed to be a strike or a bona fide labor dispute and no worker shall be denied benefits by reason of a lockout;

(2) For which he has received or is seeking unemployment compensation under an unemployment compensation law of another state or of the United States, except as otherwise provided by an arrangement between this state and such other state or the United States. But if the appropriate agency of such state or of the United States finally determines that he is not entitled to such unemployment compensation, this subsection shall not apply; or

(3) (a) Which, when based on service in an instructional, research, or principal administrative capacity in an institution of higher education as defined in subsection (2) of KRS 341.067 or in an educational institution as defined in subsection (4) of KRS 341.067, begins during the period between two (2) successive academic years, or during a similar period between two (2) regular terms, whether or not successive, or during a period of paid sabbatical leave provided for in the individual's contract, if the worker performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that the worker will perform such services in any such capacity for any institution or institutions of higher education or an educational institution in the second of such academic years or such terms; or

(2) The board shall consist of the county clerk, the sheriff and two (2) members appointed by the State Board of Elections not later than July 1 following the election of persons to statewide office, for a term of four (4) years and until their successors are appointed. The first board shall be appointed within one (1) month following December 1, 1972, and serve until successors are appointed in April, 1976. The sheriff shall not serve on the board during any year in which he is a candidate, but shall recommend to the board a temporary replacement to serve in his place, subject to approval by the board. The county clerk may, at his option, continue to serve on the board during a year in which he is a candidate. If the clerk elects not to serve, he shall recommend a temporary replacement to serve in his place, subject to approval by the board. If the board rejects a replacement recommended by the sheriff or the county clerk, a new name shall be recommended until a temporary appointment is approved by the board. Service on the board of elections shall be compatible with the holding of any other county office. Vacancies and temporary vacancies shall be filled in the same manner as provided for original appointments and the person appointed to fill the vacancy or temporary vacancy shall be of the same political party as his predecessor. Compensation and payment of actual expenses of members shall be set by the fiscal court either as an amount payable on an annual basis, or as an amount payable on a per diem basis of not less than fifteen dollars ($15) nor more than one hundred dollars ($100) for each day the board meets.

If there are two (2) or more contending executive committees of the same party in any county, the one (1) recognized by the written certificate of the chairman of the state central committee of the party shall be the one (1) authorized to submit the lists. The lists shall contain the full name, address, phone number and Social Security number, if available, of each person listed. The lists shall be accompanied by a signed statement from each person stating that he is willing to serve, has not failed to serve without excuse in the past, and has not been convicted of an election law offense. The State Board of Elections shall prescribe by administrative regulation the form of the list.

(3) The Attorney General shall notify each county political party chairman of the duties of the party.

(4) If lists are submitted, one (1) judge at each voting place shall be selected from each list, and the sheriff shall be chosen from one (1) list and the clerk from the other. If no lists are submitted, the two (2) members of the county board of elections who are appointed by the State Board of Elections may submit lists; and the county board shall select the sheriff and one (1) judge from one (1) list and the clerk and the other judge from the remaining list. If no lists are submitted, the county board shall select the sheriff and one (1) judge from the membership of one (1) party and the clerk and the other judge from the membership of the remaining party.

(5) If, after all reasonable efforts have been made, the county board of elections is unable to find two (2) qualified officers for each precinct who are affiliated with the two (2) political parties having representation on the State Board of Elections, the county board shall submit a list of emergency election officer appointments to the State Board of Elections. The county board shall also present, in writing, its efforts to recruit and appoint election officers as prescribed in subsection (4) of this section. The list of emergency appointments may include qualified voters not affiliated with the two (2) parties represented on the state board. The state board, after its review, may approve any or all of the emergency appointments submitted by the county board or may direct the county board to take other action. Any emergency appointment shall be made for the next ensuing election only.

(6) The county board of elections shall, within ten (10) days before the next ensuing election, give each election officer written notice of his appointment. The board may direct the sheriff of the county to serve the notice of appointment, if it deems the action is necessary.

(7) The State Board of Elections may require the county board of elections to submit its list of precinct officers for review. The State Board of Elections may, after a hearing, direct the removal of any election officer who the board finds, based upon clear and convincing evidence, would not fairly administer the state election laws. The state board shall replace any officer so removed. The board shall provide for the method and manner of the hearing by administrative regulation.

(8) An election officer shall be a qualified voter of the precinct; except that, where no qualified voter of the required political party is available within the precinct, the election officer shall be a qualified voter of the county. An election officer shall not be a candidate or the spouse, parent, brother, sister or child of a candidate who is to be voted for at the election. An election officer shall not have changed his voter registration party affiliation for two (2) years prior to his appointment. An election officer may be removed, for cause, at any time up to five (5) days before an election. Vacancies shall be filled in the same manner as provided for original appointments and the person appointed to fill the vacancy shall be of the same political party as his predecessor, except for emergency appointments made as provided in subsection (5) of this section.

(9) If the county board of elections fails to appoint election officers, or if any officer is not present at the precinct at the time for commencing the election, or refuses to act, and if no alternate is available, the officer in attendance representing the political party of the absentee shall appoint a suitable person to act in his place for that election. If both representatives of the same political party are absent, qualified voters present affiliating with that party shall elect, viva voce, suitable persons to act in their places.

(10) Each election officer shall be paid a minimum of forty-nine dollars ($49) per day, and such an additional amount as compensation as may be determined by the county board of elections, with the approval of the governing body which would be responsible for funding the election officers' pay, for each election in which the election officer serves, to be paid by the county. For delivering the election packets to the polls, the precinct election officers shall receive in addition the mileage reimbursement provided for state employees, for each mile necessarily traveled in the delivery of the packets to the polls, or a flat fee if the fee equals or exceeds that amount. For delivering election returns, the two judges shall receive in addition the mileage reimbursement provided for state employees for each mile necessarily traveled from the place of voting to and from the place of delivery, or a flat fee if the fee equals or exceeds that amount. The fee paid to the two (2) judges for delivering election returns shall be paid by the county.

(7) The State Board of Elections may require the county board of elections to submit its list of precinct officers for review. The State Board of Elections may, after a hearing, direct the removal of any election officer who the board finds, based upon clear and convincing evidence, would not fairly administer the state election laws. The state board shall replace any officer so removed. The board shall provide for the method and manner of the hearing by administrative regulation.

(8) An election officer shall be a qualified voter of the precinct; except that, where no qualified voter of the required political party is available within the precinct, the election officer shall be a qualified voter of the county. An election officer shall not be a candidate or the spouse, parent, brother, sister or child of a candidate who is to be voted for at the election. An election officer shall not have changed his voter registration party affiliation for two (2) years prior to his appointment. An election officer may be removed, for cause, at any time up to five (5) days before an election. Vacancies shall be filled in the same manner as provided for original appointments and the person appointed to fill the vacancy shall be of the same political party as his predecessor, except for emergency appointments made as provided in subsection (5) of this section.

(9) If the county board of elections fails to appoint election officers, or if any officer is not present at the precinct at the time for commencing the election, or refuses to act, and if no alternate is available, the officer in attendance representing the political party of the absentee shall appoint a suitable person to act in his place for that election. If both representatives of the same political party are absent, qualified voters present affiliating with that party shall elect, viva voce, suitable persons to act in their places.

(10) Each election officer shall be paid a minimum of forty-nine dollars ($49) per day, and such an additional amount as compensation as may be determined by the county board of elections, with the approval of the governing body which would be responsible for funding the election officers' pay, for each election in which the election officer serves, to be paid by the county. For delivering the election packets to the polls, the precinct election officers shall receive in addition the mileage reimbursement provided for state employees, for each mile necessarily traveled in the delivery of the packets to the polls, or a flat fee if the fee equals or exceeds that amount. For delivering election returns, the two judges shall receive in addition the mileage reimbursement provided for state employees for each mile necessarily traveled from the place of voting to and from the place of delivery, or a flat fee if the fee equals or exceeds that amount. The fee paid to the two (2) judges for delivering election returns shall be paid by the county.

The Committee on Natural Resources and Environmental Protection reported **HB 386**, **HB 465** and **HB 472**, with Committee Substitute attached thereto, with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

HB 386, AN ACT relating to air emissions.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 77 IS CREATED TO READ AS FOLLOWS:

The air pollution control board, in conjunction with the Natural Resources and Environmental Protection Cabinet, shall promulgate administrative regulations, rules and orders, to implement Section 7412(i)(5) of Title 42, United States Code, relating to alternative emission limitations allowed for early reduction of emissions.

Section 2. KRS 224.20-110 is amended to read as follows:

(1) No person shall, directly or indirectly, emit into or discharge into the air under the jurisdiction of the Commonwealth, or cause, permit, or allow to be emitted or discharged into such air any contaminants as provided for in subsection (1) of KRS 224.01-010 that shall cause or contribute to the pollution of the air of the Commonwealth in contravention of the emission standards or the ambient air standards adopted by the cabinet, or in contravention of any of the rules, regulations, or orders of the cabinet, or in contravention of any of the provisions of this chapter.

(2) For the purpose of fostering willing compliance with the emission standards and the ambient air standards adopted by the cabinet, the cabinet shall promulgate and implement administrative regulations which give effect to Section 7412(i)(5) of Title 42, United States Code, relating to alternative emission limitations allowed for early reduction of emissions. The program established by this subsection shall be conducted strictly in accordance with the federal law.

HB 465, AN ACT relating to the disposal of chemical agents.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 224.50-130 is amended to read as follows:

(1) ***The General Assembly of Kentucky finds that:***

(a) The compounds listed in subsection (2) of this section were designed and configured to be utilized for warfare, with the purpose of incapacitating or inducing lethality in persons who come in contact with the compounds, and that the compounds have no legitimate civilian use;

(b) The Commonwealth of Kentucky owes to its residents a duty of utmost care to assure that no person will be exposed to these compounds or the degradation by-products of these compounds through purposeful or accidental release of the compounds into the air, land, or water of the Commonwealth, and also owes a duty to utilize the police powers of the Commonwealth to guarantee the safe demilitarization, decommissioning, dismantling, and disposal of weapons containing these compounds and to eliminate potential risks of exposure from the treatment and disposal of the compounds;

(c) Section 6929 of Title 42 of the United States Code, specifically recognizes and reserves to the Commonwealth the authority to impose reasonable restrictions directly relating to public health and safety with respect to the management of hazardous wastes beyond the minimum standards established under federal law; and

(d) There exist substantial gaps in information concerning the acute and chronic health effects and environmental consequences of exposure to the compounds and the degradation by-products of the compounds listed in subsection (2) of this section, which, given the high acute toxicity of the compounds relative to other regulated hazardous wastes, justify the imposition of standards correlative to the uncertainties and severity of risks potentially posed by the treatment or disposal of the compounds.

(2) Notwithstanding any other provision of this chapter, within thirty (30) days after July 15, 1988, the cabinet shall list the following substances as hazardous wastes for the purposes of regulation of the treatment, storage, and disposal of the wastes under the delegated authority of the Resource Conservation and Recovery Act, 42 U.S.C. 6901 et seq.: GB (isopropyl methyl phosphonoflouridate); VX (O-ethyl-S-(2-diisopropylaminoethyl) methyl phosphonothiolate); and H (bis(2-chloroethyl) sulfide) and related compounds.

(3)[~~(2)~~] In addition to the requirements of KRS 224.46-520(1), the cabinet shall consider the criteria set forth in this subsection in making a determination to issue, deny or condition a permit for any person desiring a permit to construct or operate a hazardous-waste site or facility for treatment, storage or disposal of any of the substances identified in subsection *(2)*[~~(1)~~] of this section. The applicant shall affirmatively demonstrate, and the cabinet shall find prior to issuance, conditional issuance or denial of the permit, that:

(a) The proposed treatment or destruction technology has been fully proven in an operational facility of scale, configuration, and throughput comparable to the proposed facility, for a period of time sufficient to provide ***consistent*** assurance of ***destruction or neutralization at an efficiency of*** ninety-nine and nine thousand, nine hundred, and ninety-nine ten thousandths percent (99.9999%) ***for*** [~~destruction or neutralization of~~] each substance proposed to be treated or destroyed***, with the efficiency to be demonstrated as achievable during the design life of the facility under all operating conditions including during the occurrence of malfunctions, upsets, or unplanned shutdowns***;

(b) Monitoring data from ***an operational*** [~~a comparable~~] facility ***as described in paragraph (a) of this subsection*** reflects the absence of emissions from ***treatment and destruction facilities*** [~~stack~~] or fugitive sources, including but not limited to the ***substances identified in subsection (2) of this section and*** products of combustion and incomplete combustion, which alone or in combination present any risk of acute or chronic human health effect***, as demonstrated by sufficient and applicable toxicological data,*** or adverse environmental effect; [~~and~~]

(c) ***A plan has been submitted to the cabinet and approved, providing*** [~~Provision has been made~~] for development and funding of sufficient training, coordination, and equipment for state and local emergency response personnel, including the health, police, fire, and emergency response fields, to assure the ability of the community to respond to releases from such a facility, including development and funding of an ***emergency response*** [~~evacuation~~] plan by the applicant which demonstrates the capability of ***evacuating prior to exposure all*** [~~removing~~] individuals ***that might be exposed to releases from the facility during a credible*** [~~from the largest area at risk from a~~] worst-case release. ***In determining the population and area of potential exposure during a worst-case release, all possible climatic conditions and population distributions shall be assumed for the largest area where any exposure to the release could induce acute or chronic health consequences or environmental impact. The plan shall be developed and submitted for approval by the applicant, and no technical review of a permit subject to this section shall proceed unless the plan has first been approved, after public notice and an opportunity to be heard concerning the plan;***

(d) In considering any application for a permit subject to this section, and supporting information which shall be provided by the applicant on request by the cabinet, the cabinet shall not issue a permit unless, as part of the alternatives analysis of KRS 224.46.520(1), the cabinet makes an affirmative finding after public notice and an opportunity to be heard, that:

1. No alternative method of treatment or disposal, including, but not limited to, neutralization and transportation to a less-populated disposal site, exists that creates less risk of release or harm to the public or the environment in the event of release;

2. No alternative method of treatment or destruction, including, but not limited to, neutralization and transportation to a less-populated disposal site, is likely to exist or could be developed which would pose less risk of release or harm to the public or environment in the event of release, before the time that the decomposition of the compounds or the containers or munitions housing the compounds, necessitates destruction of the compounds due to serious risk of imminent and substantial release of the compounds due to instability or container degradation. In considering alternatives to the proposed activity, the cabinet shall affirmatively consider all reasonable alternatives, including alternatives that could be developed, and shall issue a permit only where it finds by clear and convincing evidence that no alternative treatment or disposal option, including transportation, exists or could be developed that would provide greater protection against exposure or harm to the public or environment; and

(e) In addition to the definition of the term as defined in this chapter, the term "treatment", as used in this section, shall include the manual or mechanical handling of the chemical compounds listed in subsection (2) of this section and of any munitions containing the compounds; and the processing of munitions to remove the compounds, to separate compound components, and to otherwise prepare the components and compounds for destruction, neutralization, transportation, dismantling, or decommissioning.

(1) After a preliminary determination has been made concerning the issuance or denial of any permit authorizing the construction or reconstruction of an air contaminant source, or the modification of an existing permit by any source where the modification will cause an increase in the potential to emit one hundred (100) tons per year or more of any pollutant or combination of pollutants, or any increase in emissions of a toxic air pollutant, the cabinet shall notify the public by prominent advertisement in newspapers of general circulation in the locality in which the proposed source would be located or modified, of the application and preliminary determination with respect to the application. The notice shall be sent to the applicant, local governmental and land use bodies and local air pollution agencies, and persons on a mailing list that shall be maintained of interested persons requesting to receive the notices.

(2) The cabinet shall provide a thirty (30) day comment period for receipt of comments pertaining to the proposed agency action with respect to applications to construct, reconstruct, or modify an air

contaminant source, and shall provide a detailed response to all comments when the final agency determination is made with respect to an application.

(3) In any action seeking review pursuant to KRS 224.10-420 of a determination of the agency under this section with respect to an air contaminant source, the hearing officer may grant a stay of the permitting action pending administrative review, if:

(a) A hearing has been held on the request for a stay in which all parties were given an opportunity to be heard;

(b) The person requesting relief shows that there is a substantial likelihood that he will prevail on the merits of the final determination of the proceeding; and

(c) The relief will not adversely affect the public health or safety or cause significant imminent environmental harm to land, air, or water resources, and the relief requested is not issuance of a permit where the permit has been denied.

Section 3. Whereas, permits authorizing the construction or reconstruction of air contaminant sources are in the process of being reviewed without an opportunity for the public to comment, an emergency is declared to exist, and this Act shall become effective upon its passage and approval by the Governor.

The Committee Substitute to **HB 472** is as follows:

HB 472, AN ACT relating to air emissions and declaring an emergency.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF SUBCHAPTER 20 OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) Any air contaminant source that thermally treats soils that have been contaminated by releases of petroleum from underground tanks at commercial or industrial facilities where the soils are not otherwise regulated as hazardous waste shall be subject to this section, unless it accepts only those soils it has contaminated or those soils contaminated by its wholly-owned subsidiary. Any mobile unit for thermal treatment of petroleum contaminated soils where the unit processes the soils at, or in the immediate proximity, of the site of the soil contamination and which does not receive soils from other contaminated sites or facilities shall not be subject to this section.

(2) The cabinet shall not accept an application to construct or operate a new air contaminant source subject to this section unless the fiscal court in which that source will be located approves, after public notice and a public hearing, its construction or operation. A fiscal court shall not disapprove operation of a source if it has previously approved its construction. The fiscal court shall consider the social and economic impacts of that source on the affected county, including changes in property values, community perception, and other psychic costs; costs and availability of public service facilities and improvements required to support the source and to protect the public health, safety, and the environment; and the relationship of the source to local planning and existing development.

(3) After a preliminary determination has been made concerning the issuance or denial of a permit authorizing the construction or reconstruction of an air contaminant source subject to this section or the modification of a permit for an air contaminant source subject to this section, when modification will cause an increase in the potential to emit one hundred (100) tons per year or more of any pollutant or any significant increase in emissions of a toxic air pollutant, the applicant shall notify the public by prominent advertisement in newspapers of general circulation in the locality in which the source will be located or modified of the application and preliminary determination with respect to the application. The cabinet shall send notice of its preliminary determination to the applicant, local governmental, land use bodies and local air pollution agencies, and persons on a mailing list that shall be maintained of interested persons requesting to receive the notices.

(4) The cabinet shall provide a thirty (30) day comment period for receipt of comments pertaining to the preliminary determination with respect to applications to construct, reconstruct, or modify an air contaminant source subject to this section, and shall provide a detailed response to all significant comments when the final agency determination is made with respect to an application.

Section 2. Whereas permits authorizing the construction or reconstruction of the air contaminant sources subject to Section 1 of this Act are in the process of being reviewed without an opportunity for the public to comment, an emergency is declared to exist, and this Act shall become effective upon its passage and approval by the Governor.

The Committee on State Government reported **HB 113**, with Committee Substitute attached thereto, **HB 455**, with Committee Substitute attached thereto, **HB 487**, with Committee Substitute attached thereto, **SB 96**, **SB 111**, with Committee Amendment attached thereto, and **SJR 7** with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

A one hundred percent (100%) credit against the Kentucky state income tax that otherwise would be owed in the year, as determined under KRS 141.347, to the Commonwealth by the approved company on the income of the approved company generated by or arising out of the economic development project, such credit not to exceed the total debt service paid under the respective financing agreement; plus

2. The aggregate assessment withheld by the approved company in each year.

The approved company shall not be required to pay estimated income tax payments as prescribed in KRS 141.042.

(4) (a) The financing agreement shall provide that the assessments, when added to the credit for the Kentucky state corporate income tax herein granted, shall not exceed the total financing agreement annual payment by the approved company in any year, however, to the extent that financing agreement annual payments exceed credits received and assessments collected in any year, the excess payment may be recouped from excess credits or assessment collections in succeeding years.

(b) If during any fiscal year of the financing agreement the total of the income tax credit granted to the approved company plus the assessment collected from the wages of the employees equals the annual payment pursuant to the financing agreement, and if all excess payments pursuant to the financing agreement accumulated in prior years have been recouped, the assessment collected from the wages of the employees shall cease for the remainder of the fiscal year of the financing agreement.

(5) The financing agreement shall provide that:

(a) It may be assigned by the approved company only upon the prior written consent of the authority following the adoption of a resolution by the authority to such effect; and

(b) Upon the default by the approved company in the obligation to render its annual payment, the authority shall have the right, at its option, to declare the financing agreement in default and to accelerate the total of all annual payments that are to be made or to terminate the financing agreement and sell the economic development project at public or private sale, or to pursue any other remedies available under the Kentucky Uniform Commercial Code, as from time to time amended, or otherwise available in law or equity.

If revenue bonds are sold at public, competitive sale, the revenue bonds shall be sold after newspaper advertising conforming to the requirements of KRS Chapter 424 and competitive bids for the sale of the revenue bonds shall be opened and read publicly by the board at a designated place, day and hour, all of which shall be announced in the advertising made relative thereto.

(d) In its proceedings authorizing the issuance of revenue bonds or notes, the board shall fix and determine contractual provisions with the bondholders relating to the receipt, allocation, pledging, and disbursement of revenues made available to the cabinet for bond purposes, and may enact and determine terms, conditions, and restrictions pursuant to which additional revenue bonds of the cabinet may be authorized and issued from time to time. The proceedings, determinations, and enactments of the board shall specify that the payment of principal of and interest on all cabinet revenue bonds and notes shall constitute a first charge and lien against all revenues made available to the cabinet for bond purposes before any such revenues are used, applied, and disbursed for any other valid purposes of the cabinet, including the payment of operation and maintenance costs incident to the operation of the cabinet.

(e) The proceeds of all revenue bonds or notes shall be used solely for the purpose of enabling the cabinet to enter into agreements or interim financing agreements with governmental agencies and private companies, corporations, partnerships, and other entities, to acquire and lease projects to governmental agencies, private companies, corporations, partnerships and other entities, to purchase obligations of governmental agencies issued for economic development projects, to make loans or grants to governmental agencies, private companies, corporations, partnerships, and other such entities for economic development projects, or for any purpose authorized in this chapter. Revenue bond or note proceeds may also be used and applied for the payment of ordinary and necessary expenses in connection with issuance of the revenue bonds or notes, including, but not by way of limitation, a sum equal to any discount in the sale thereof, if discount bids are authorized and permitted by the board, administrative expenses, including the preparation of revenue bonds or notes, publication of notices, printing and other costs, attorneys' fees, and other ordinary and necessary costs of financing, including the payment of fees to fiscal agents for advice and assistance in the preparation and marketing of revenue bonds or notes.

(f) Prior to the preparation of definitive revenue bonds or notes, the board may, under like restrictions, issue interim receipts or temporary bonds, exchangeable for definitive revenue bonds or notes when the revenue bonds or notes shall have been executed, and are available for delivery. The board shall also provide for the replacement of any revenue bonds or notes that shall have become mutilated or shall have been destroyed or lost. Revenue bonds or notes may be issued under the provisions of this chapter directly by the board without obtaining the consent or acquiescence of any cabinet, division, commission, board, department, or agency of the state other than the Finance and Administration Cabinet, and as provided in KRS 42.420, and without any other proceedings or the happening of any other conditions or things except as specifically required by this chapter and the provisions of the resolution or resolutions of the board authorizing the issuance of the revenue bonds or notes.

(2) The board shall assume all bond issuance and refunding authority, power, duties, and obligations as existed on the effective date of this Act for the Kentucky Development Finance Authority, and the Kentucky Rural Economic Development Authority; the ability of any of the foregoing organizations to issue industrial revenue bonds under KRS Chapter 103; and the ability of any of the foregoing authorities to issue economic development revenue bonds as provided in this chapter. The board shall also have the authority and power to issue revenue bonds for any other economic development activity as set forth in this chapter.

(3) The board shall for purposes of the Kentucky Revised Statues be deemed to be the successor issuer for all of the currently issued and outstanding bond issues by the organizations set forth in subsection (2) of this section. The board shall have the authority and the power to reaffirm all existing bond obligations of the organizations in subsection (2) of this section and shall perform all duties, obligations, and requirements as may be necessary and required under the bond documents relating to each and every such issue. The board shall also, in regard to each and every such issue, exercise its authority and power as set forth in this chapter.

(4) In the discretion of the board, any revenue bonds or notes issued under the provisions of this chapter may be secured by a trust indenture by and between the cabinet and corporate trustee which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. A

trust indenture, or the resolution of the board providing for the issuance of revenue bonds or notes, may pledge or assign for the security of the revenue bonds or notes, all or any part of the totality of revenues made available to the cabinet for bond purposes received and to be received. The trust indenture or resolution of the board may contain provisions for protecting and enforcing the rights and remedies of the bondholders which may be reasonable and proper, and not in violation of law, including, but not limited to, covenants and provisions setting forth the duties of the cabinet in relation to the purposes to which revenue bonds and note proceeds may be applied; the disposition or pledging of assets and revenues made available to the cabinet for bond purposes; and the custody, safeguarding, and application of all such revenues. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of revenue bonds, notes, or revenues made available to the cabinet for bond purposes, to furnish such indemnifying bonds, or to pledge such securities as may be required by a trust indenture or resolution of the board. Any trust indenture or board resolution may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders, where a trust indenture has been entered into. In addition to the foregoing, any trust indenture or board resolution may contain other provisions which the board determines to be reasonable and proper for the further security of the holders of any revenue bonds or notes. All expenses incurred in carrying out the provisions of a trust indenture or bond proceedings may be treated as a part of the cost of operating the cabinet, and may be paid from revenues pledged or assigned to the payment of the principal of and the interest on revenue bonds or notes, or from any other funds properly available to the cabinet for bond purposes. However, the payment of operational costs from revenues made available to the cabinet for bond purposes shall, as provided in subsection (1) of this section, be subordinate to the payment of principal of and interest on cabinet revenue bonds or notes from revenues made available to the cabinet for bond purposes, it being intended that these principal and interest requirements shall be secured by a prior and paramount lien on gross revenues made available to the cabinet for bond purposes.

(5) Notwithstanding any other provision to the contrary, any trust indenture or board resolution shall provide that, except to the extent the rights afforded to bondholders by this section shall be enforceable and enforced by a trustee under a trust indenture rather than by the bondholders, any holder of revenue bonds or notes issued by the cabinet or any of the coupons appurtenant thereto, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any and all rights generally arising under the laws of the Commonwealth, or granted under this chapter, or under a trust indenture, or by the resolution of the board authorizing the issuance of revenue bonds or notes, and may specifically enforce and compel by mandamus the performance of all duties required by this chapter, or by trust indenture, or board resolution, to be performed by the cabinet or by any officer or employee thereof, including, but not limited to, the prompt and full enforcement of the terms and conditions of all assistance agreements, to which the cabinet is a party.

(6) The cabinet is hereby authorized to provide for the issuance of refunding revenue bonds or notes for the purpose of refunding any revenue bonds or notes then outstanding, whether issued by the cabinet under the provisions of this chapter or one (1) of the agencies, authorities or organizations referenced in subsections (2) and (3) of this section, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of these revenue bonds or notes, and, if determined advisable by the board, for the additional purpose of providing further funds for the carrying out of the proper public and governmental purposes of the cabinet. The issuance and sale of the refunding revenue bonds or notes, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties, and obligations of the cabinet in respect of the same, shall be governed by the provisions of this chapter which relate to the issuance of revenue bonds or notes, insofar as these provisions may be applicable.

(7) Refunding revenue bonds or notes may be sold or exchanged directly for outstanding revenue bonds or notes of the cabinet, and if sold, the proceeds thereof shall be applied, in addition to any other authorized purposes, to the purchase, redemption, or payment of these outstanding revenue bonds or notes. Pending the application of the proceeds of any refunding revenue bonds, with any other available funds, to the payment of the principal, accrued interest, and any redemption premium on the revenue bonds or notes being refunded (and if so provided or permitted in the board resolution authorizing the issuance of the refunding revenue bonds or notes, or in the trust indenture securing the same, to the payment of any interest on the refunding revenue bonds or notes and any expenses in connection with the refunding), the proceeds may be invested in direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America which shall mature or which shall be subject to redemption by the holders thereof at the option of such holders not later than the respective dates when the proceeds, together with the interest accruing thereon, will be required for the purposes intended.

(8) Revenue bonds and notes issued by the cabinet under the provisions of this chapter are hereby declared and deemed to be securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds,

including capital in their control or belonging to them. These obligations of the cabinet are hereby declared and determined to be securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth, for the purpose for which the deposit of bonds, notes, or obligations of the Commonwealth is now, or may hereafter be, authorized by law.
